

## SKYWARN® Storm Spotter Training Schedule

### **BASIC Spotter Training Course Overview (Duration approximately 2 hours)**

This free training will include: a brief introduction to the National Weather Service (NWS), the different types of hazardous weather and how to safely observe them, the types of severe weather to report, and how to send those reports to the NWS. No prior knowledge of weather or weather observing is necessary to attend this training.

### **ADVANCED Spotter Training Course Overview (Duration approximately 2 hours)**

This free training will include: a description of the ingredients necessary for severe thunderstorms and tornadoes to form, the stages of thunderstorm development, radar interpretation and other advanced meteorological topics. Basic spotter training is highly encouraged as a prerequisite.

| Date & Time  | Location   | Address   | County         | Registration Contact  |
