

## County Impacts Associated with Potential Tropical Cyclone 8 (2024)

Narratives listed in alphabetical order by county, separated by state (if applicable).

Updates:

- 09/18/2024 - Initial issuance.

County Name <b>Allendale (SC)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Beaufort (SC)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Berkeley (SC)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Charleston (SC)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
<p>On September 15, 2024 at 7:12 PM the maximum tide level at the Charleston Harbor tide gauge was 1.99 FT MHHW (7.75 FT MLLW). Moderate coastal flooding typically begins along the coast of Charleston County when the tide reaches 1.74 FT MHHW (7.0 FT MLLW) in the Charleston Harbor. Social media pictures indicated significant beach erosion along the beachfront of several homes on Isle of Palms, between beach access points of 2 and 2A.</p>			

County Name <b>Colleton (SC)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
<p>On September 15, 2024 at 7:12 PM the maximum tide level at the Charleston Harbor tide gauge was 1.99 FT MHHW (7.75 FT MLLW). Moderate coastal flooding typically begins along the coast of Colleton County when the tide reaches 1.74 FT MHHW (7.0 FT MLLW) in the Charleston Harbor.</p>			

County Name <b>Colleton (SC)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Dorchester (SC)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Hampton (SC)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Jasper (SC)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

---

County Name <b>Bryan (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Bulloch (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Bulloch (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A

County Name <b>Candler (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Chatham (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
On September 15, 2024 at 7:12 PM the maximum tide level at the Fort Pulaski tide gauge, located at the entrance of the Savannah River, was 2.14 FT MHHW (9.64 FT MLLW). Minor coastal flooding typically begins when the tide gauge reaches 2.0 FT MHHW (9.5 FT MLLW).			

County Name <b>Effingham (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Evans (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Jenkins (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Liberty (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Long (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>McIntosh (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Screven (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.			

County Name <b>Tattnall (GA)</b>	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: N/A
None.
