

Weather Briefing for Southeast SC/GA

11:00 AM

Friday, November 22, 2019

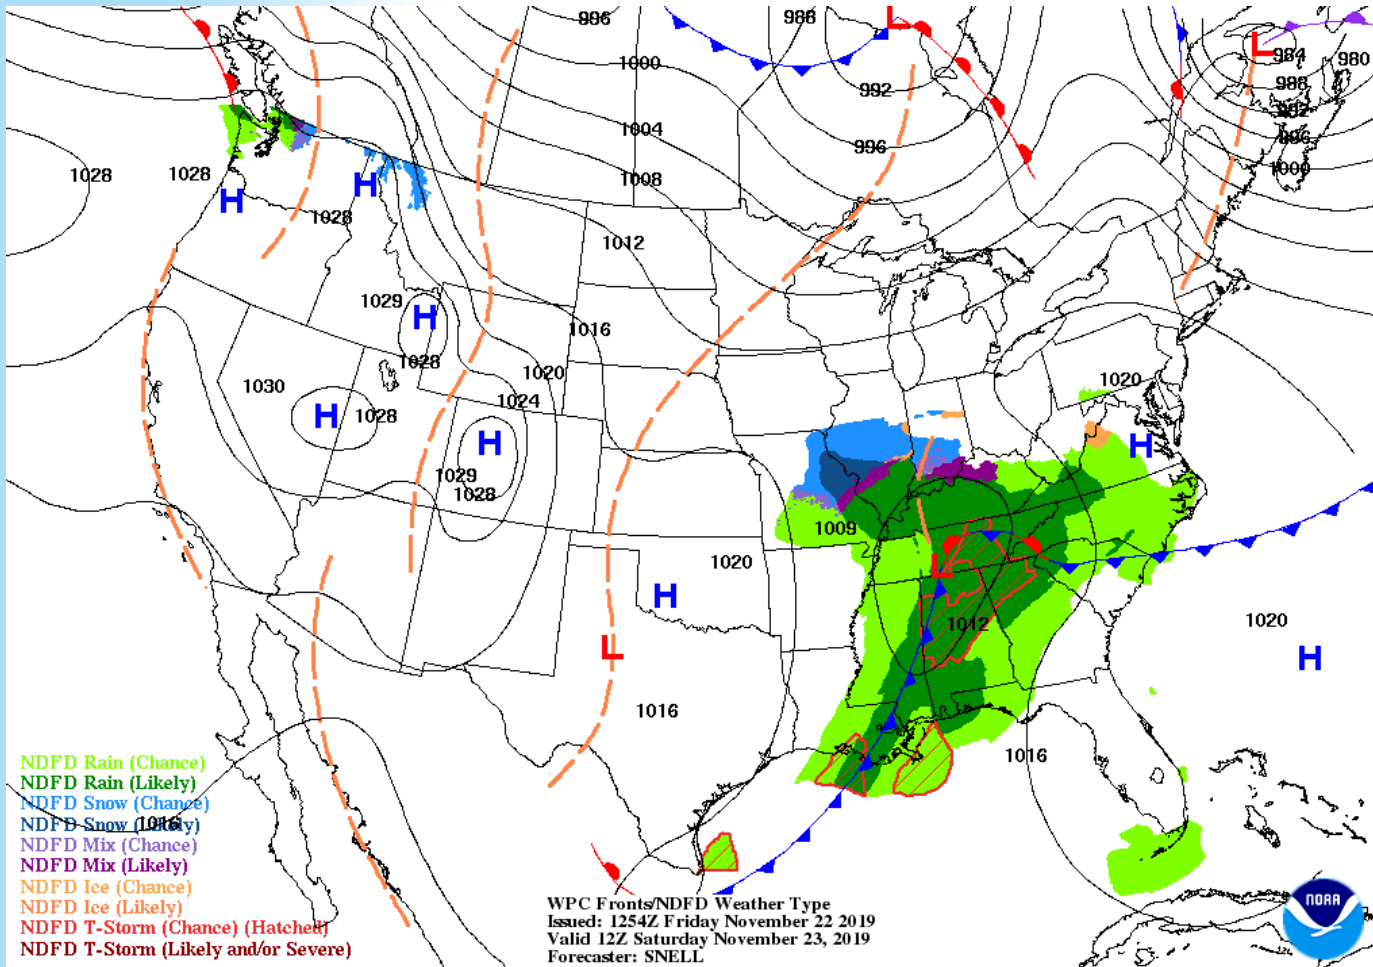

Disclaimer: *The information contained within this briefing is time-sensitive and could affect its validity as the date/time moves away from when the briefing was created.*

Highlights

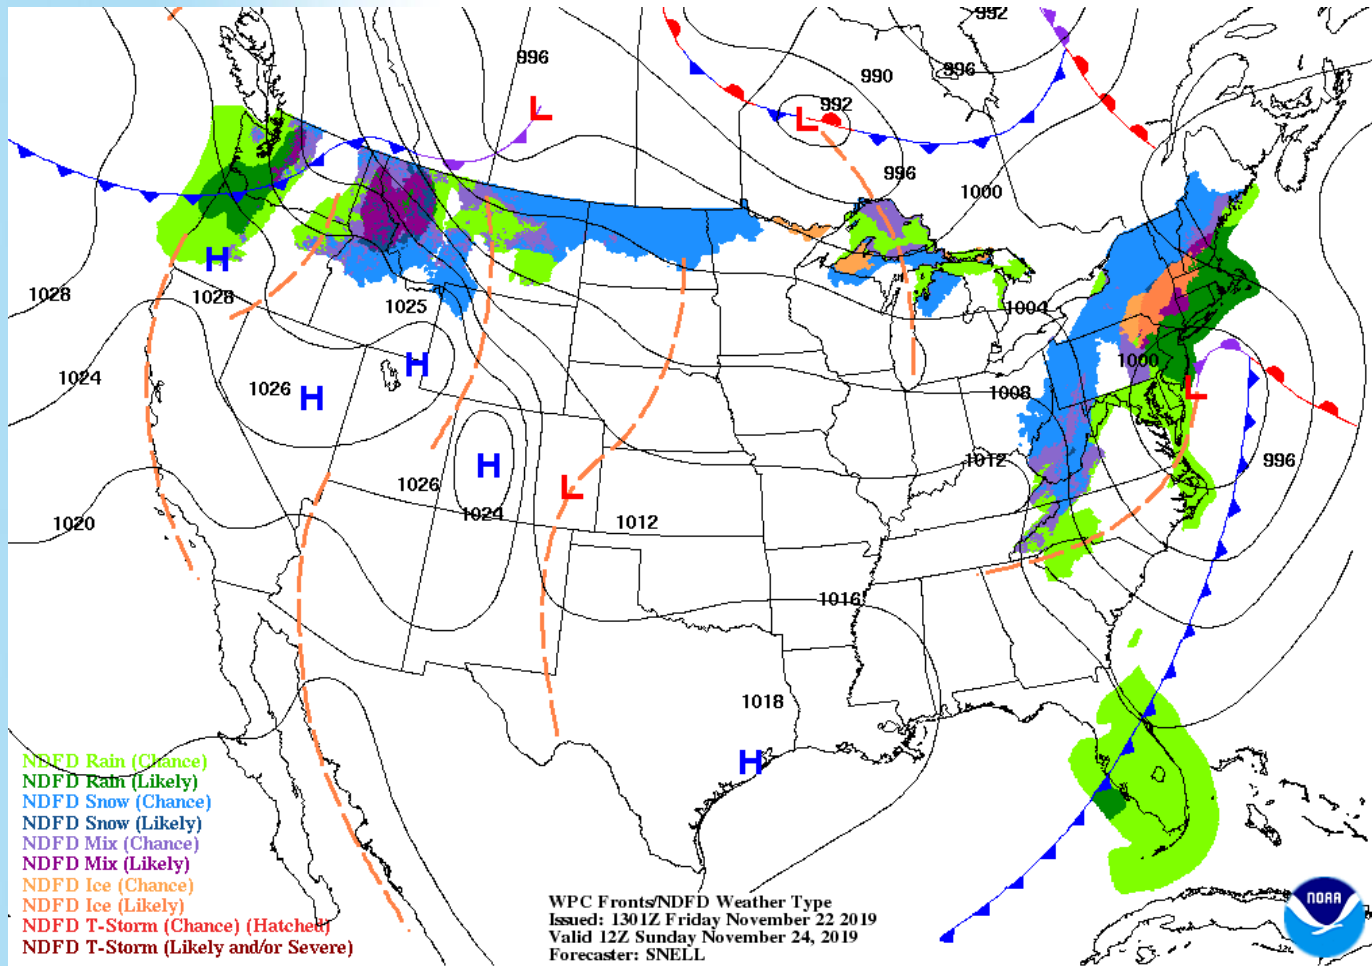

- No significant weather events are anticipated over the weekend into the middle of next week.
- Scattered to numerous showers are expected to accompany a cold front on Saturday Night.
- High pressure will return Sunday into Tuesday.
- Minor coastal flooding possible around the morning high tides next week, mainly Downtown Charleston.
- Another cold front is possible during the middle to latter half of next week.

Saturday Weather Map

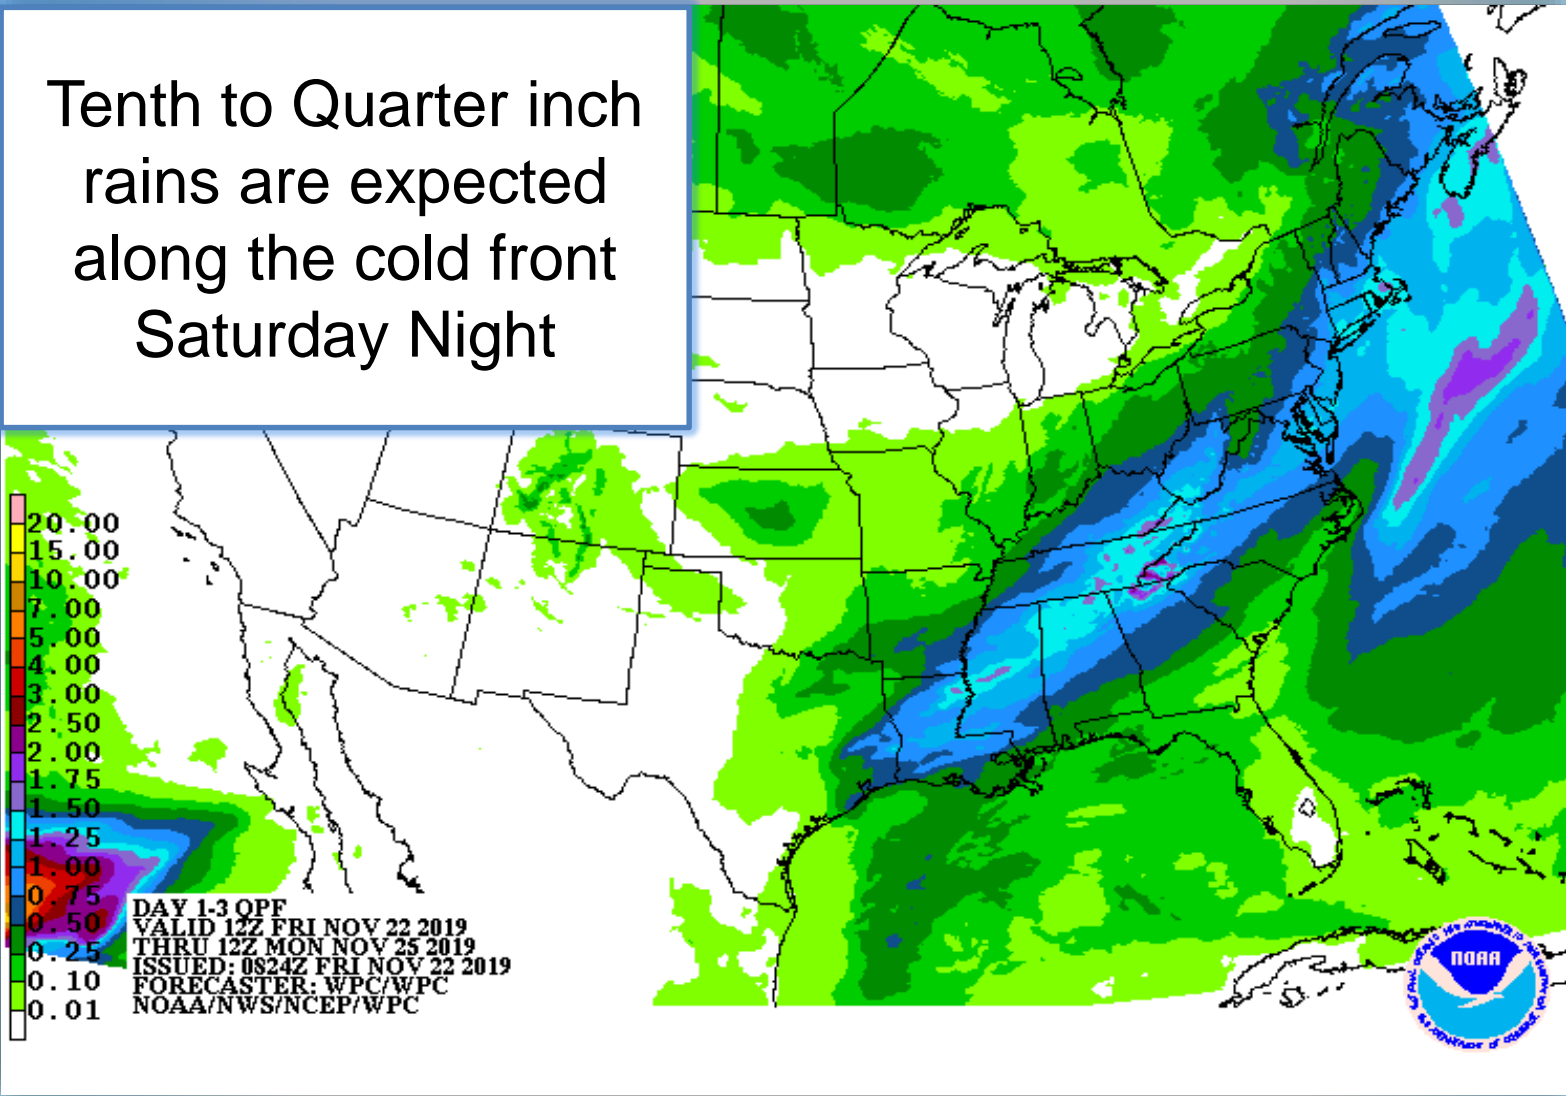

✓ Cold front will be moving through the southeast states

Sunday Weather Map

✓ Building high pressure and clearing skies

Tenth to Quarter inch rains are expected along the cold front Saturday Night

Tide Levels & Forecast

Charleston, SC Tide Forecast

- ✓ High tide forecast to be in or around action stages until perhaps the Monday morning high tide.

Fort Pulaski, GA Tide Forecast

✓ Shallow coastal flooding is unlikely at Fort Pulaski

Marine Highlights

- Small Craft Advisories may be required Saturday Night into Sunday morning as a cold front moves through the waters. Winds and seas will subside late in the weekend as high pressure builds toward the waters.

Aviation Highlights

- Potential for ceiling restrictions in association with a cold front passage Saturday Night. Showers may also result in brief periods of visibility restrictions on Saturday Night.

Fire Weather Highlights

- No Concerns.
