

Slight Risk of Severe Storms

April 30, 2025
1:55 PM

For Thursday May 1, 2025

OVERVIEW:

- Showers and thunderstorms are expected on Thursday ahead of a cold front.
- Damaging winds and locally heavy rainfall are the primary concerns.

TIMING

- Thursday afternoon and evening.

HAZARDS & IMPACTS

- There is a **Slight Risk of Severe Thunderstorms (Level 2 of 5)**.
- Isolated to scattered severe storms possible with damaging wind gusts to 60 mph. Damage to trees and some power outages are possible.
- Locally heavy rain and large hail are also possible.

NWS ALERTS

- Stay tune for updates and possible watches and warnings.
- Optional list of relevant Watch/Warning/Advisory products that have been issued.

FORECAST CHALLENGES

- Clouds and coverage of rain may limit strength of storms.
