CARIBE WAVE 2019

Dans les Caraïbes et régions adjacentes, 48 États membres et territoires ont participé à cet exercice, avec un total de 793,353 personnes engagées.

- Cela représentait un taux de participation des États membres de 100% (contre 97% en 2018).

Objectifs Caribe Wave 20

1. Exercer et évaluer les communications entre le fournisseur régional de services au tsunami et les États membres/territoires.

- A. Validez l'**émission** des produits tsunami du PTWC.
- B. Valider la **réception** et la diffusion des produits tsunami par les points focaux d'alerte aux tsunamis du CARIBE EWS (TWFP) et/ou du Centre National d'alerte aux Tsunamis (NTWC).

2. Évaluer les procédures et les programmes relatifs aux tsunamis dans les États membres/territoires.

- A. Valider l'état de préparation de la réponse à un tsunami.
- B. Valider la capacité opérationnelle des points focaux d'alerte aux tsunamis (TWFP, ou fonction similaire) et/ou le Bureau national de gestion des catastrophes (NDMO).
- C. Améliorer la préparation opérationnelle. Avant l'exercice, s'assurer que des outils et des plans d'intervention appropriés ont été élaborés, y compris du matériel d'éducation publique.
- D. Valider que la diffusion des alertes et des informations/conseils par les TWFP et les NTWC aux agences nationales pertinentes et au public est exacte et opportune.
- E. Évaluer l'état de la mise en œuvre du programme de reconnaissance Tsunami Ready pour le système Caribe EWS.

PRODUITS PTWC

Pour Caribe Wave 20, le PTWC émettra les produits suivants:

- Le message dummy initial pour les deux scénarios sera émis le 19 mars 2020 à 1400 UTC et diffusé sur tous ses canaux de diffusion standards.
- Le PTWC affichera un message de début d'exercice sur son compte Twitter à 1400 UTC.

 - D'ici le 6 Mars 2020, chaque État membre doit sélectionner un scénario et remplir le questionnaire suivant (<https://forms.gle/7iEBp187x1UXaXYy6>) pour sélectionner le scénario que leur pays utilisera pour l'exercice. Si l'État membre n'informe pas le PTWC et le CTWP, les organisateurs décideront pour quel scénario le PTWC enverra les produits.
 - Chaque pays et territoire choisira un scénario et décidera si et comment diffuser les messages dans sa zone de responsabilité.

TEST... POTENTIAL IMPACTS... TEST

THIS IS A TEST MESSAGE. A TSUNAMI IS A SERIES OF WAVES. THE TIME BETWEEN WAVE CRESTS CAN VARY FROM 5 MINUTES TO AN HOUR. THE HAZARD MAY PERSIST FOR MANY HOURS OR LONGER AFTER THE INITIAL WAVE.

THIS IS A TEST MESSAGE. IMPACTS CAN VARY SIGNIFICANTLY FROM ONE SECTION OF COAST TO THE NEXT DUE TO LOCAL BATHYMETRY AND THE SHAPE AND ELEVATION OF THE SHORELINE.

THIS IS A TEST MESSAGE. IMPACTS CAN ALSO VARY DEPENDING UPON THE STATE OF THE TIDE AT THE TIME OF THE MAXIMUM TSUNAMI WAVES.

THIS IS A TEST MESSAGE. PERSONS CAUGHT IN THE WATER OF A TSUNAMI MAY DROWN... BE CRUSHED BY DEBRIS IN THE WATER... OR BE SWEPT OUT TO SEA.

Chaque État membre doit définir son propre groupe de travail et déterminer les tests qui seront réalisés et l'ampleur de la participation nationale.

The screenshot shows the homepage of The TsunamiZone website. At the top, there is a navigation bar with links for "Page d'accueil", "Régions du TsunamiZone", "Autres langues", "Contactez-nous", "Recherche", and "Connexion". Below the navigation is a large banner featuring a coastal landscape with waves and a person running. The text "The TsunamiZone" is overlaid on the banner. On the left side of the main content area, there is a blue button labeled "Inscrivez-vous ici!" and a red rectangular box highlighting a blue button labeled "Qui participe?". Below these buttons, there is a section titled "BIENVENUE SUR TSUNAMIZONE!" with "ENGLISH | ESPAÑOL" links. To the right of this section is a graphic with three icons: a person crouching with the text "SE BAISER!", a person lying down with the text "S'ABRITER!", and a person gripping a door handle with the text "ET S'AGRIPPER!". Below this graphic is the text "Protégez-vous pendant les tremblements de terre." To the right of the main content area is a sidebar titled "Caribe Wave" which lists "ACTIVITÉS OFFICIELLES 2020" with dates and locations: "16-20 Mars Puerto Rico, îles vierges américaines, CARIBE WAVE (19 Mars)", "23-27 Mars Californie & Alaska", "24 Mars LANTEX20", "26 Mars PACIFEX20", and "5 de Novembre Journée mondiale de sensibilisation aux tsunamis".

TWFP et NTWC n'ont pas besoin de s'inscrire sur la zone Tsunami pour recevoir les bulletins simulés du PTWC, **mais sont encouragés à le faire pour faire partie du compte statistique des participants.**
