

***NATIONAL WEATHER SERVICE POLICY DIRECTIVE 10-11
SEPTEMBER 30, 2016***

***Operations and Services
SPACE WEATHER SERVICES***

NOTICE: This publication is available at: <http://www.nws.noaa.gov/directives/>.

OPR: W/AFS24 (W. Bauman/R. Rutledge)

Certified by: W/AFS (A. Stern)

Type of Issuance: Routine

SUMMARY OF REVISIONS: This directive supersedes National Weather Service Policy Directive (NWSPD) 10-11, “*Space Weather Services*” dated March 6, 2013. Changes made to reflect NWS Headquarter reorganizations effective April 1, 2015.

1. The objectives of National Weather Service (NWS) Space Weather Services (SWS) are to provide space weather forecast, watch, warning, and alert information and services to the Nation for protection of life and property, and to develop new products and services to meet the needs of users of space weather information and services.
2. This directive assigns the following authorities and responsibilities:
 - 2.1 The Analyze, Forecast, and Support Office (AFSO) is responsible for:
 - a. Preparing policy and procedure directives.
 - b. Managing standard system programs.
 - c. Consolidating and analyzing performance and effectiveness indicators.
 - 2.2 The Office of Science and Technology Integration will plan, develop, demonstrate, and integrate scientific techniques and system capabilities for Space Weather Services.
 - 2.3 NWS regional headquarters offices, the Aviation Weather Center and other National Centers, the Alaska Aviation Weather Unit, Weather Forecast Offices, Center Weather Service Units, and the Spaceflight Meteorology Group will maintain awareness and knowledge of space weather events, routing specific questions to the Space Weather Prediction Center (SWPC).
 - 2.4 The SWPC, which is part of the National Centers for Environmental Prediction (NCEP), is responsible for monitoring space weather, and producing specifications, predictions, guidance, and outlooks to support SWS. The SWPC will perform applied research and development to improve space weather products and leverage these improvements into operational services. The SWPC will utilize its Space Weather Prediction Testbed (SWPT) to promote the transition of space weather models to operations at NCEP.
 - 2.5 All NWS SWS components will ensure space weather products and information are standardized and consistent.

- 2.6** SPWC will coordinate space weather services with the World Meteorological Organization and the International Civil Aviation Organization.
- 3.** The NWS will measure the effectiveness of the SWS as determined by products and services delivered to supported users.
- 4.** Procedural directives will be issued to implement this policy as needed and determined by the Director, AFSO.

<u>Signed</u>	<u>September 16, 2016</u>
Louis W. Uccellini	Date
Assistant Administrator for Weather Services
