Wednesday: Tornadoes

Tornado Drill at 11 AM CT - Wednesday, March 24

Thursday: Preparedness

Friday: Flooding

NATIONAL WEATHER SERVICE
OCEANIC AND ATMOSPHERIC ADMINISTRATION

TORNADO

DRILL

Wednesday, March 24, 2021 at 11 AM CT

This year the drill will NOT be accompanied by the traditional Test Tornado Watch & Tornado Warning. Instead the Tornado Drill will be “activated” by the NOAA Weather Radio Weekly Test AND on our social media platforms.

We encourage all to review your communication plan and “practice” their severe weather drill.
