

Winter Weather Advisory

April 2, 2025
5:13 AM

In effect through 10 AM this morning

Key Points...

- ✓ Mixed precipitation expected this morning. Total snow accumulations up to two inches across the Tri-Cities and Thumb and up to a tenth of an inch of ice accumulations.
- ✓ Winds will be gusting to 35 mph after sunrise.
- ✓ Plan on slippery road conditions, especially on elevated surfaces. The hazardous conditions will impact the Wednesday morning commute.
- ✓ Any snow and ice accumulations will rapidly melt-off during the afternoon and early evening hours, prior to the afternoon and evening thunderstorm activity .

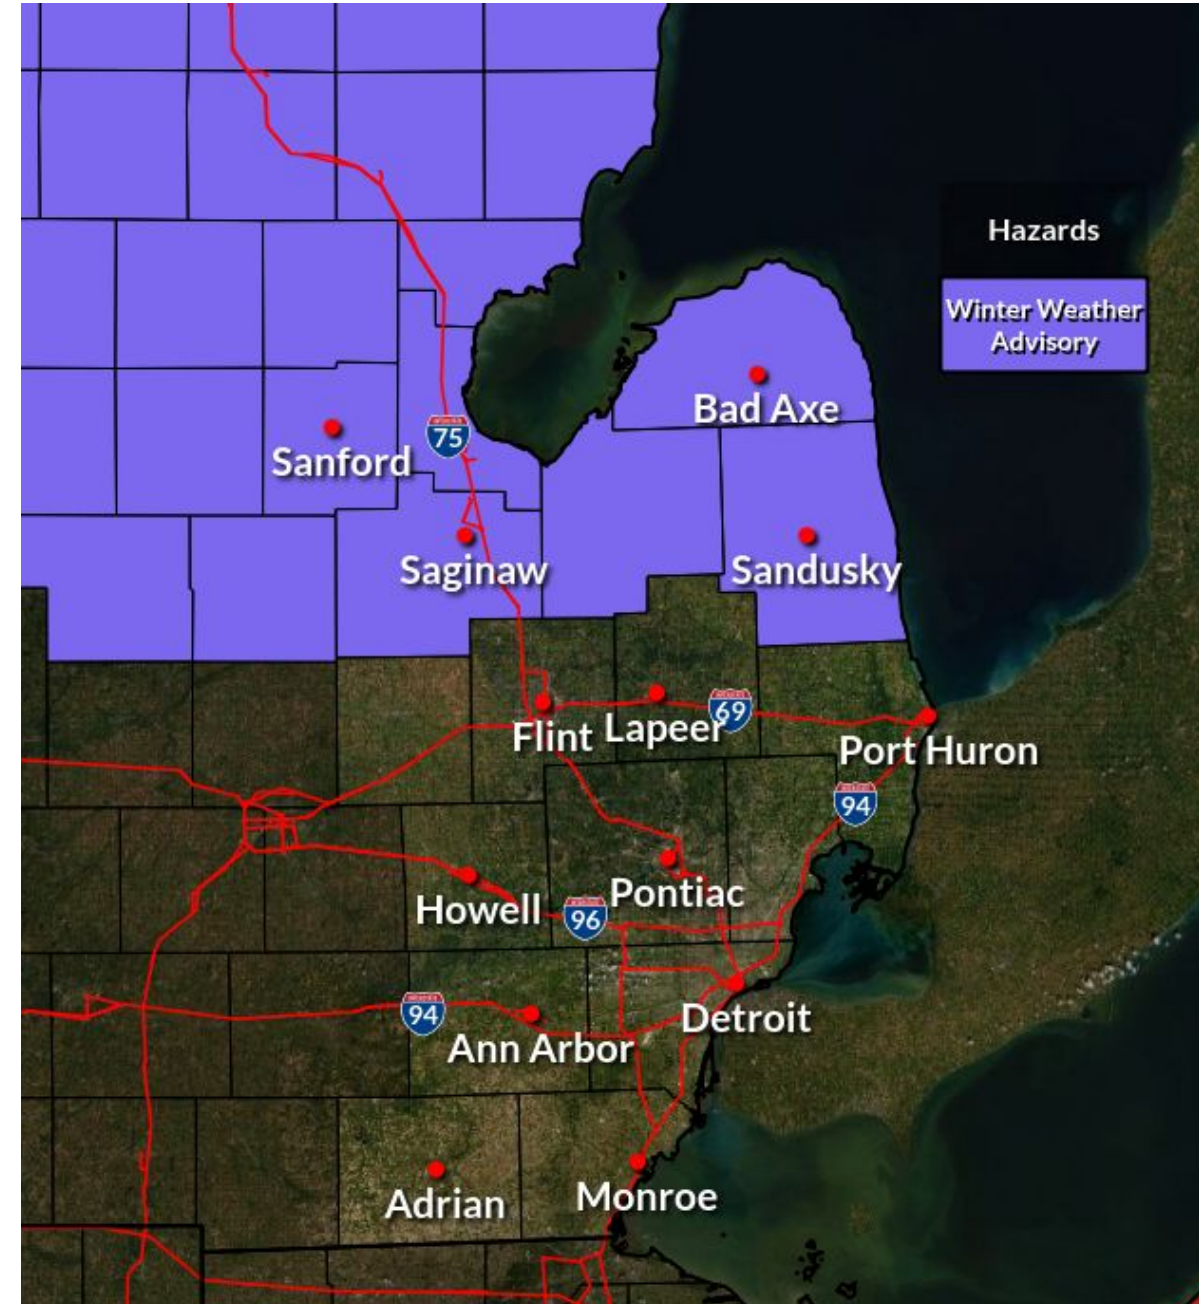

Travel Impacts

Slow commute times, Untreated surfaces will become slick and hazardous. Low visibility.

Plan ahead! Check the forecast and give yourself extra time to get to your destination.

ICE & SNOW, TAKE IT SLOW

Each year in the U.S., there are over **1,000 deaths** and **100,000 injuries** due to vehicle crashes during winter weather.

DID YOU KNOW?

Clean off your vehicle before driving.
Flying snow from cars causes accidents.

Keep it slow, and don't use cruise control.
Roads can be slick even if they just look wet.

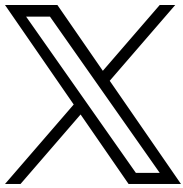

Leave extra distance between vehicles.
Stay especially far from snow plows.
