No Hazardous Weather Expected

Message of the Day:

- Quiet and chilly weather through the weekend. No hazardous weather is expected.
Forecast Guidance For Temporary Structures

Today
• No hazardous weather

Weekend
• No hazardous weather

Note: Assume all tents are transparent with respect to lightning. That means they offer no protection from lightning and should be evacuated in advance of, during, and 30 minutes after thunderstorms. Additionally, tents have a variety of wind ratings depending on the design, materials used, and whether the tent was deployed and anchored in line with manufacturer recommendations. Know your structure’s wind rating and plan accordingly.
Extended Outlook

Discussion

Near normal to slightly above normal temperatures with near normal precipitation are favored during the mid to late January time period.
