Citizens Weather Observing Program (CWOP)
Configuration for **Davis WeatherLink.com 2.0 Users**
(Last updated: 29 January 2019)
These instructions assume you have already setup your weather station and Weatherlink.com account.

1.) Gather Station Location Data
- You will need your **Latitude and Longitude** in decimal degrees and Elevation in metres. (This info may already have been entered on weatherlink.com)
- See the How-To “Signing up for CWOP” for methods to obtain your station location data: [http://www.weather.gov/media/epz/mesonet/CWOP-SignUp.pdf](http://www.weather.gov/media/epz/mesonet/CWOP-SignUp.pdf)

2.) Get a CWOP Station ID:
With any web browser, fill out the form at: [http://www.findu.com/citizenweather/cw_form.html](http://www.findu.com/citizenweather/cw_form.html)

3.) Send the form, then make note of your CWOP Station ID:
Your Citizen's Weather Account Number is: FWxxxx
An email will be sent to John Doe (johndoe@anonymous.net) confirming this number.

4.) Configure Weatherlink.com:
4.) Continued:

• After logging in, click on the settings (wrench) icon on the far right.

• The ‘Device Info’ screen will come up.

(If you have multiple devices, they’ll show up in a list on the right. Make sure you select the correct device to setup.)

• Next, click “uploads” on the black bar near the upper-right.

• On the uploads page, look for the CWOP section. Click the checkbox and add your CWOP Station ID (from step 3). Leave the passcode blank.

• Click the ‘Exit’ button (not shown) when finished.

5.) Check for Data:

Note: It may take up to an hour for data to start appearing.

• You can click on the “Latest submission” link, or browse to the following web address, using your CWOP Station ID at the end:
  http://www.findu.com/cgi-bin/wx.cgi?call=YOUR_CWOP_ID_HERE
• For example, if your Station ID was CW0958, you would enter:
  http://www.findu.com/cgi-bin/wx.cgi?call=CW0958
