| **Differences**	**MMEFS**	**HEFS**
Length of outlooks	7 days into the future	10 days into the future
Number of graphics	**6** - River Stage/Flows cone, River Stage/Flows traces, six-hour rainfall, total rainfall, snow water content, temperatures	**4** - River Stage/Flows cone, total rainfall, snow water content, temperatures
Weather model inputs for river model	Temperatures and precipitation (not bias-corrected)	Temperatures and precipitation (**bias-corrected**)
Weather model inputs traces	GEFS (21 members), NAEFS (42 members)	HEFS (60+)
River model output traces	GEFS (21 members), NAEFS (42 members)	HEFS (60+)
Uncertainties accounted for	Future temperatures and precipitation	Future temperatures and precipitation. Hydrologic model uncertainties will be accounted for in near future
