

Austin Area

LAST UPDATE: June 13, 2021

NOTES OF RECORDS FOR AUSTIN AREA:

Months are excluded from monthly records if more than 5 days in the month or 3 consecutive days are missing (per WMO/TD-No. 341). In addition, seasons and years are excluded if any month has more than 5 days missing or 3 consecutive days are missing (per WMO/TD-No. 341 as no missing monthly normals are permitted in the calculation of annual normals). In addition, annual averages are calculated as the mean or sum of the 12 monthly normals or averages, without consideration of the varying lengths of the months (per WMO/TD-No. 341).

SUMMARY OF SITES INCLUDED IN THE AUSTIN AREA THREAD:

Austin Area includes observations from the following locations:

1. 1906 - October 14, 1926: Engineering Building, University of Texas
Note: The exact location of observations prior to 1906 in Austin is unknown.
2. October 15, 1926 - October 7, 1936: Littlefield Building, Sixth and Congress (Downtown)
3. October 8, 1936 - February 11, 1942: Federal Court Building, 200 W. 8th St. (Downtown)
4. February 12, 1942 - August 15, 1942: Littlefield Building, Sixth and Congress (Downtown)
5. August 16, 1942 - July 20, 1999: Mueller Municipal Airport

Note: Station moved 0.7 mi SE of the old station on July 1, 1961. Another minor move of 0.25 mi SE occurred on October 24, 1979 (ASOS was commissioned on July 1, 1995).

6. July 21, 1999 - present: Camp Mabry Army National Guard Base

****SNOWFALL DATA DOES NOT EXIST FROM 1997 TO 2002 AT AUSTIN AREA****

All-Time Records Notes:

The following years were not counted in the list of annual temperature climate extremes due to missing data: 1897 (276 missing days), 1900 (39), 1901 (22), and 1922 (55).

The following years were not counted in the list of annual precipitation climate extremes due to missing data: 1891 (243 missing days), 1892 (30), 1893 (61), 1894 (61), 1895 (91), 1896 (305), 1897 (184), 1907 (31), and 1922 (31).

There are 3 missing high temperatures in January 1926, so this was not counted in the list of climate extremes. If included, it had the eighth coolest average temperature (42.6).

There are 7 missing days in December 1925, so this was not counted in the list of monthly climate extremes. If included, it had the sixth coolest low temperature (31.2).
