

Sept 2021 Climate Summary

Temperatures were slightly above normal as the monsoon began to wind down. Rainfall was heaviest in central and eastern Arizona with below normal amounts in much of Coconino County. Storms early in the month produced many reports of flash flooding on the Navajo Nation.

	Average Temperature	Departure from Normal	Precip	% of Normal Precip
FLAGSTAFF	60.2°	+1.9°	1.13"	61%
PRESCOTT	69.5°	+0.8°	1.78"	140%
