...THE FLASH FLOOD WARNING REMAINS IN EFFECT UNTIL 1045 PM CDT FOR
VAN ZANDT AND RAINS COUNTIES...

At 850 PM CDT, Doppler radar indicated that earlier thunderstorms
have moved east of the warned area. However, Doppler radar indicates
that pockets of 4 inches of rainfall fell from near Canton to
Edgewood. This rainfall will continue to lead to excessive water
runoff and cause flash flooding. Low-lying areas are most vulnerable
to rapidly rising water. Some low-water crossings may flood and
become impassable.

Some locations that will experience flooding include...
Canton, Wills Point, Grand Saline, Edgewood, Emory, East Tawakoni,
Fruitvale, Purtil Creek State Park, Lake Tawakoni State Park and
Point.

PRECAUTIONARY/PREPAREDNESS ACTIONS...

Turn around, don't drown when encountering flooded roads. Most flood
deaths occur in vehicles.
