TEXAS, North

Tarrant County
2 NE Haslet

Measured at Ft. Worth Alliance Airport.

Tarrant County
Saginaw

Considerable roof damage, fences blown down and outbuildings were destroyed.

Denton County
Sanger

A motor home was blown over. A barbeque store was unroofed and trees and power lines were blown down. Damage was scattered over a 5 mile area, including major damage to 5 homes.

Tarrant County
Benbrook

One house was destroyed and several homes were unroofed by high thunderstorm winds

Tarrant County
Ft Worth

A mobile home was blown over and several homes were unroofed.

Tarrant County
Ft Worth Meecham Arp

Hangar damage occurred. A plane flipped onto another plane.

Tarrant County
North Richland Hills

Trees and fences were blown down and shingles were blown off roofs.

Cooke County
Callisburg

An agricultural building was unroofed. Widespread reports of damage to roofs, outbuildings, fences, trees, and utility poles.

Dallas County
(Dfw)Dallas-Ft Worth

Measured at the DFW airport.

Denton County
Carrolton

Wind damage occurred to approximately 6 houses. Most of the damage was to the roofs. Trees, signs, Trees, signs, and fences were also blown down.

Denton County
Lewisville

Interstate 35 was closed for a while due to downed power lines.

Tarrant County
Arlington

A motel was unroofed by high winds. Large signs were blown down.

Grayson County
Countywide

Trees, signs, and power lines were blown down all across the county.

Grayson County
1 N Pottsboro

A tin roof was blown off a building.

Grayson County
Tioga

A storage shed was blown off its foundation.
Another slow moving storm system brought copious amounts of rain to north Texas and more flash flooding. A stalled boundary helped focus the rain across north Texas, and many reports of flooding were received.

The same stalled boundary from the 23rd, together with a nocturnal low level jet stream, allowed for thunderstorm development, mainly north and west of a Goldthwaite, Hillsboro, Canton line. These thunderstorms left additional outflow boundaries which developed more thunderstorms. Due to the cold air aloft, hail and damaging winds were the main events. During the morning hours of the 24th, a supercell thunderstorm moved from Northern Dallas County to Fannin County bringing heavy rain, hail, and strong wind. Additionally, a squall line developed and moved across North Texas bringing mainly wind to the area. Across the Dallas/Fort Worth metroplex, some wind gusts included: DFW Airport, a wind gust to 67 kts, with Alliance Airport in Fort Worth recording a wind gust of 61 kts. Other reports included 32 kts at Dallas Love Field, 45 kts at Fort Worth Meacham Airport, 48 kts at Mineral Wells, 35 kts at Denton Airport and 33 kts at McKinney. Numerous reports of downed power lines, roof and structure damage were received as a result of the strong winds over the area.
