Numerous flooded roadways in League City. Flood waters were inundating numerous roads within the city of Galveston.				
<b>A slow moving upper low over the Southwestern U.S. combined with near record level moisture aided in producing extremely heavy rainfall and devastating flooding over portions of Harris, Waller and Fort Bend Counties. Northwest to southeast orientated bands of precipitation commenced during the early evening hours of April 17th across extreme southwestern and western Harris County as well</b>				

## Storm Data and Unusual Weather Phenomena - April 2016

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

as north and west into Grimes, Waller, Fort Bend, Austin and Colorado Counties. Between 8:00 p.m. and 9:00 p.m. thunderstorms began to greatly intensify and slow their northward movement over Waller County and, by late evening, had stalled and began shifting eastward into western Harris County. Excessive rainfall spread across northwestern Harris County during the late evening hours of April 17th and into the early morning hours of April 18th. Slow thunderstorm movement and rain rates over 4 inches per hour resulted in a large portion of northwest Harris and Waller Counties receiving between 10 and 20 inches of rainfall over mainly a 12 hour period. A few CoCoRaHS gauges in Waller County measured over 20 inches.

The flooding resulted in 9 direct fatalities over the region, all drownings in vehicles. Seven of these were in Harris County with 1 in Waller County and another in Austin County. An estimated 40000 cars and trucks were flooded. Several bayous and creeks were flooded. The Addicks Barker Reservoir was severely impacted. At least 10,000 homes were flooded. Damage was estimated from Damage Survey Reports to be near \$60 million.

**MONTGOMERY COUNTY --- 2.6 ENE SPRING [30.09, -95.38]**

04/21/16 10:26 CST		10K	Lightning
04/21/16 10:26 CST		0	Source: Law Enforcement

A lightning strike caused a house fire in the Spring Trails subdivision.

Shows and thunderstorms moved across Southeast Texas during the morning and afternoon hours.

**GALVESTON COUNTY --- 1.9 ESE LEAGUE CITY S S ARPT [29.47, -95.10], 0.9 SE LEAGUE CITY [29.49, -95.09]**

04/24/16 17:29 CST		0.10M	Tornado (EF0, L: 1.44 mi , W: 30 yd)
04/24/16 17:36 CST		0	Source: NWS Storm Survey

An EF-0 tornado produced intermittent damage that began southwest of a Cabelas parking lot then continued east across Interstate 45 and then on toward the NE across a Candlewood Suites hotel and an assisted living center. The tornado continued north- northeast through the Victory Lakes subdivision then to near Lynn Nursery along Pecan Orchard Road where they was some minor tree damage . Vehicles were damaged by swirling winds and debris around the Cabelas and the Candlewood Suites sustained roof damage. In area neighborhoods, damage was mostly minor with numerous fences down and loose objects like basketball goals and trampolines knocked over. One storage shed in Victory Lakes was picked up and thrown approximately 300 yards.

An early evening EF-0 tornado caused minor damage in League City.

04/30/16 10:00 CST	0	Source: Law Enforcement

Heavy rainfall caused the flooding, and the subsequent closure, of Rose Road. There was also flooded streets in the nearby Royal Forest subdivision.

## Storm Data and Unusual Weather Phenomena - April 2016

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

A weak disturbance passing ahead of a western upper level trough of low pressure moved through a regional unstable and moist environment. This initiated strong discrete thunderstorm cells that traveled across the northern half of the forecast area, producing flash flooding and wind damage.
