06	23	0600CST 2300CST			19	0			Excessive Heat
----	----	--------------------	--	--	----	---	--	--	----------------

Excessive heat impacted southeast Texas for much of the month of July. High temperatures ranged from 98 to 105 degrees on a daily basis over all but the immediate coast during a 2 week period. College Station recorded 12 consecutive days with temperatures of 100 degrees or higher. Highest temperatures for the month included 103 degrees at Houston Intercontinental Airport and 105 degrees at College Station. Only traces of rainfall were observed during this period. Of the 19 heat related deaths reported during this period, 17 were in Harris County and 2 were in Galveston County.
