Tropical Storm Bill made landfall at Ma near Matagorda Bay in Jackson and M inches caused significant inland flood Matagorda Bay was 45 knots (52 mph) Lake. There were no reported tornado	atagorda Counties and along the coa ing in and around the towns of Lolita . The maximum wind gust of 54 knots	st of Brazoria and , Edna, and Gana s (62 mph) was rej	l Galveston Count do. The maximum	ies. Heavy rainfall of over 13 sustained wind reported in
Storm surge heights ranged from 2.1 f Sargent in Matagorda County. Flood w County, surge produced minor coasta little or no damage. In the village of Su countywide beach access roads were were downed by wind. There was mino	vaters rose around homes in the city of I flooding near Surfside beaches, the Irfside Beach, Seashell, Surf and Bea closed. Heavy rain caused the floodir	of Matagorda but Treasure Island s ch Roads were cl ng of Chocolate a	no damage was re subdivision and Sa osed due to high v nd Halls Bayous. 1	ported. In Brazoria In Luis Pass Park but with vater form storm surge. All Fhere were four trees that

High rainfall occurred near the core of Bill and also within its outer bands that tapped into higher moisture that fed back into the tropical storm. This high rainfall caused inland flooding. Storm total rainfall ranged from 1.38 inches in San Jacinto County to 13.78 inches in Ganado (Jackson County). In Jackson County, FM 1593 west of La Ward and State Highway 59 from Edna to the Wharton County line were closed. Flash flooding in Washington County caused road closures in the town of Brenham early in the morning of the 17th. In Grimes County, numerous roads were closed including FM 3090 north of Navasota and FM 1774 north of Plantersville. In Wharton County, several roads were closed in El Campo. In Colorado County, numerous roads were closed in El Campo. In Colorado County, numerous roads were closed. In Walker County, there were ten county roads and a state highway that were flooded.

Numerous roadways were flooded and impassable in and around the city of Houston.

Storms moving in from the Gulf produced high rainfall rates that lead to inland flash flooding.
