Current Operation Level

Issued: 10-12-2023 05:05 AM
This morning:

- Patchy fog is possible in portions of NE AL and southern middle TN.

Weather Summary: (Today through Thursday):

- A low to medium chance of showers are expected this afternoon, mainly east of the I-65 corridor. Very light rainfall amounts expected (<0.10 inches). A storm system moving through the Great Lakes region will bring another low to medium chance of very light showers into the area late tonight before ending early Saturday morning. Very light rainfall amounts expected (<0.10 inches). Breezy on Saturday.

- There is another lower to medium chance of very light showers late Saturday night into Sunday across the area (Mainly NW AL and north of the Tennessee River). Windy on Sunday with sustained winds of 10 to 20 mph and gusts to around 30 mph.

- Much colder air will move in the area early next week with highs only reaching the mid 50s to lower 60s and lows dropping into the upper 30s to lower 40s.
