

Routine Weather Briefing

April 30, 2025

7:55 AM

Outlook Period: Wednesday 4/30/2025 through Sunday 5/4/2025

OVERVIEW:

High pressure offshore will produce gradually warmer and more humid conditions through the remainder of the week. A trough or upper low will accompany a cold front on Saturday and Sunday with showers and storms, mainly on Saturday.

HAZARDS & IMPACTS

Beaches: Moderate Risk today for southeast-facing beaches of Horry (SC), New Hanover (NC), and Pender (NC). Elevated rip risk forecasted for Horry and Brunswick county beaches Friday into the weekend
