

National Weather Service Wilmington, NC

Forecast For: July 16-20, 2018
Time Issued: July 16, 2018

Prepared by: Mark Bacon
Forecaster #: 910-762-4289

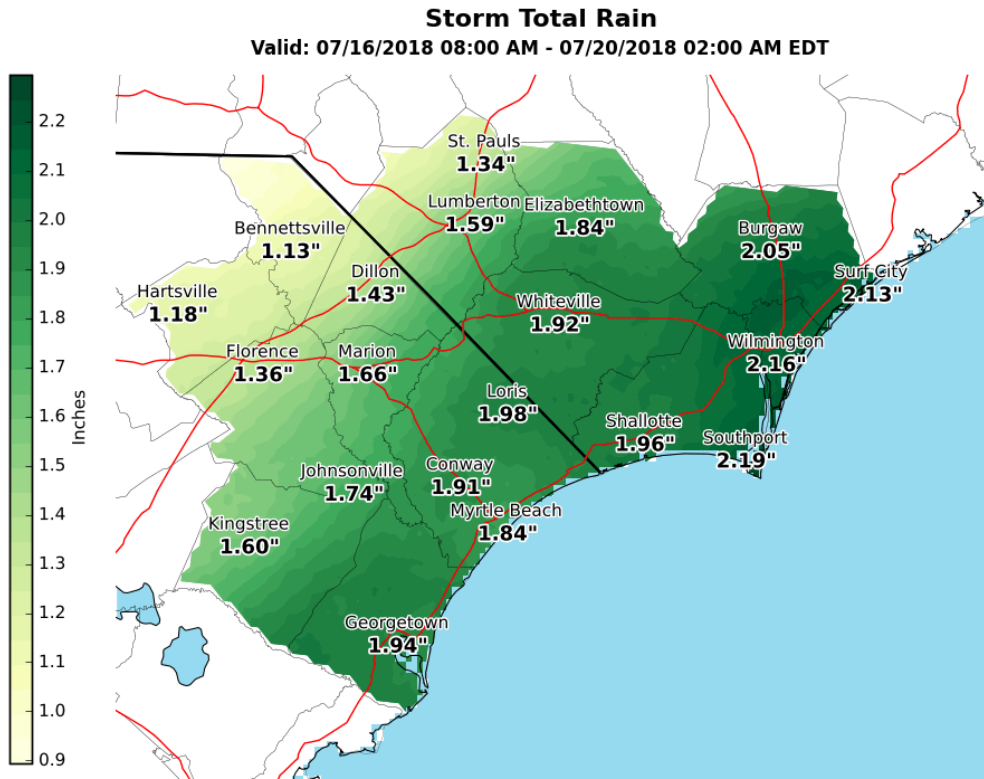

Unsettled weather for much of the week

Overview: Widespread showers will be in the forecast beginning Tuesday as a cold front stalls over the area.

Impacts: Generally beneficial rains as most locations have had below normal rainfall this month. Small chance for minor flooding along the NC coast where rainfall will be heaviest.

Timing/Confidence: Minor flooding is possible Tuesday and Friday.

Five day rainfall forecast:
