Cold Start and End to the Week. Warm-up and Rain for mid week.

**Overview:** Cold and dry high pressure will shift east by Wed allowing for a warmup. A storm system will impact the area with wet weather for Wed night into Thurs. Cold and dry weather will return by the weekend.

**Impacts:** Most places will receive up to a half inch to an inch of rain Wed night into Thu. Temps will swing from 10 degrees below normal today and Tuesday, to 10 to degrees above normal by Wed and Thurs. Expect rough marine conditions mid week as strong southerly winds push seas up to 8 to 10 ft early Thur.
