

Routine Weather Briefing

April 19, 2024
10:17 AM

Outlook Period: Friday 04/19/24 - Sunday 04/21/24

OVERVIEW:

- Rain chances increase late Friday as a cold front moves into the area. The front stalls over the region for the weekend, maintaining elevated rain chances. High pressure next week leads to drying conditions once more, with a gradual warming trend.

HAZARDS & IMPACTS	<p>LAND: There is a Marginal Risk (threat level 1 out of 5) for severe thunderstorms Friday afternoon/evening, with the main threat being damaging wind gusts.</p> <p>MARINE: None</p> <p>HYDROLOGY: None</p>
