## UNESCO/IOC – NOAA International Tsunami Information Center Capacity Building - 2005 to May 2024

Since the December 26, 2004 Indian Ocean Tsunami that killed nearly 230,000 across the Indian Ocean (180,000 in Indonesia), the ITIC has played a central role in support of the UNESCO Intergovernmental Oceanographic Commission (IOC) to inform and train countries on how to establish sustainable tsunami early warning and mitigation systems. Through training and distribution of its awareness materials and decision support tools, it has reached nearly 70 countries worldwide and trained about 4000 government officials in its 150+ courses (typically 1-week long). Through May 2024, 56% of the international trainings were focused on Pacific Countries, 20% were focused on Indian Ocean countries, 7% on Caribbean countries, 0.1% on Mediterranean and North Atlantic countries and 16% were focused on domestic training of US coastal states, territories, and commonwealths.

Trainings have emphasized an end-to-end approach to tsunami warning, covering hazard risk assessment, warning guidance, and preparedness. Topics have included the science of earthquakes and tsunamis, real-time detection and analyses and tsunami warning center and emergency response standard operating procedures, and education, preparedness, and mitigation, as together these are the key components for successful, coordinated warning and evacuation. Beginning in 2014, training focused on building country warning and response capabilities to interpret and use the Pacific Tsunami Warning Center enhanced graphical forecast products. Since 2015, newly developed trainings help communities to prepare for tsunami evacuation by teaching inundation and evacuation mapping, response planning and exercising. From 2022, Tsunami Ready trainings were begun to assist countries in implementing the UNESCO / IOC Tsunami Ready Recognition Programme.

## TRAINING SUMMARY

Year	Number Courses	International Pacific	International Indian Ocean	International Caribbean	International Medit – N Atl	Domestic USA
