Weather Impact Key Messages
Northeast Florida & Southeast Georgia

**Scattered to Numerous Afternoon and Evening T’S Storms Tuesday-Thursday**
- Isolated strong to severe t’s storm possible
- Localized Nuisance Flooding, particularly in urban and flood-prone locations

**High Rip Current Risk at All Area Beaches Today**
- Rough Surf & High Risk of Deadly Rip Currents continues at All Area Beaches through the end of the week

**Minor Flooding Continues Along Lower Portions of the Satilla River**
Distant Hurricanes Can Be Deadly

Hurricanes that are far away can still create deadly rip currents and waves.

Never assume that the ocean is safe, even if the weather is nice.

For maximum safety, swim near a lifeguard.
