Parish and County Impacts Associated with Hurricane Isaias (2026)

Narratives are listed in alphabetical order by parish and county. Louisiana Parishes are listed first followed by Mississippi counties. Only parishes and counties which were under hurricane and tropical storm watches and warnings are included in the report below. Outside of the watch and warning areas, there were no impacts to report.

Updates:

- 10/10/2026 - Initial issuance.

Parish Name **Orleans**	Injuries: 0	Fatalities: 0	Evacuations: 0
The parish experienced tropical storm force winds mainly in gusts. Storm surge resulted in minor flooding of low lying roads outside the HSDRRS levees, including through Venetian Isles and in parking lots along Lakeshore Drive and West End Point.			

Parish Name **Plaquemines**	Injuries: 0	Fatalities: 0	Evacuations: 0
The parish experienced tropical storm force winds, with sustained tropical storm force winds reported near the mouth of the MS River. Elsewhere, tropical storm force wind reports were mainly in the form of gusts. Storm surge resulted in minor flooding of low lying areas outside the HSDRRS levees, including Tidewater Road in Venice.			

Parish Name **St. Bernard**	Injuries: 0	Fatalities: 0	Evacuations: 0
The parish experienced tropical storm force winds mainly in gusts. Storm surge resulted in minor flooding of low lying roads outside the HSDRRS levees, including around the Shell Beach, Yscloskey, Hopedale, Reggio, and Delacroix communities.			

Parish Name **St. Tammany**	Injuries: 0	Fatalities: 0	Evacuations: 0
The parish experienced tropical storm force winds mainly in gusts. Storm surge resulted in minor flooding of low lying roads near the Rigolets, south Slidell, and Mandeville.			

County Name **Hancock**	Injuries: 0	Fatalities: 0	Evacuations: 0
The county experienced tropical storm force winds mainly in gusts. Trees were reported down in Waveland. Storm surge resulted in minor flooding of low lying roads, including North Beach Blvd and some streets in the Shoreline Park area.			

County Name **Harrison**	Injuries: 0	Fatalities: 0	Evacuations: 0
The county experienced tropical storm force winds mainly in gusts. No significant impacts were reported.			

County Name **Jackson**	Injuries: [Insert a number or descriptor]	Fatalities: [# direct] [# indirect]	Evacuations: [# or estimate]
The county experienced tropical storm force winds mainly in gusts. Trees were reported down in Vancleave and Moss Point. Otherwise, no significant impacts were reported.
