

Strong Wind Gusts Likely

December 27, 2025
2:49 PM

Sunday Evening through Early Monday Morning

Key Messages

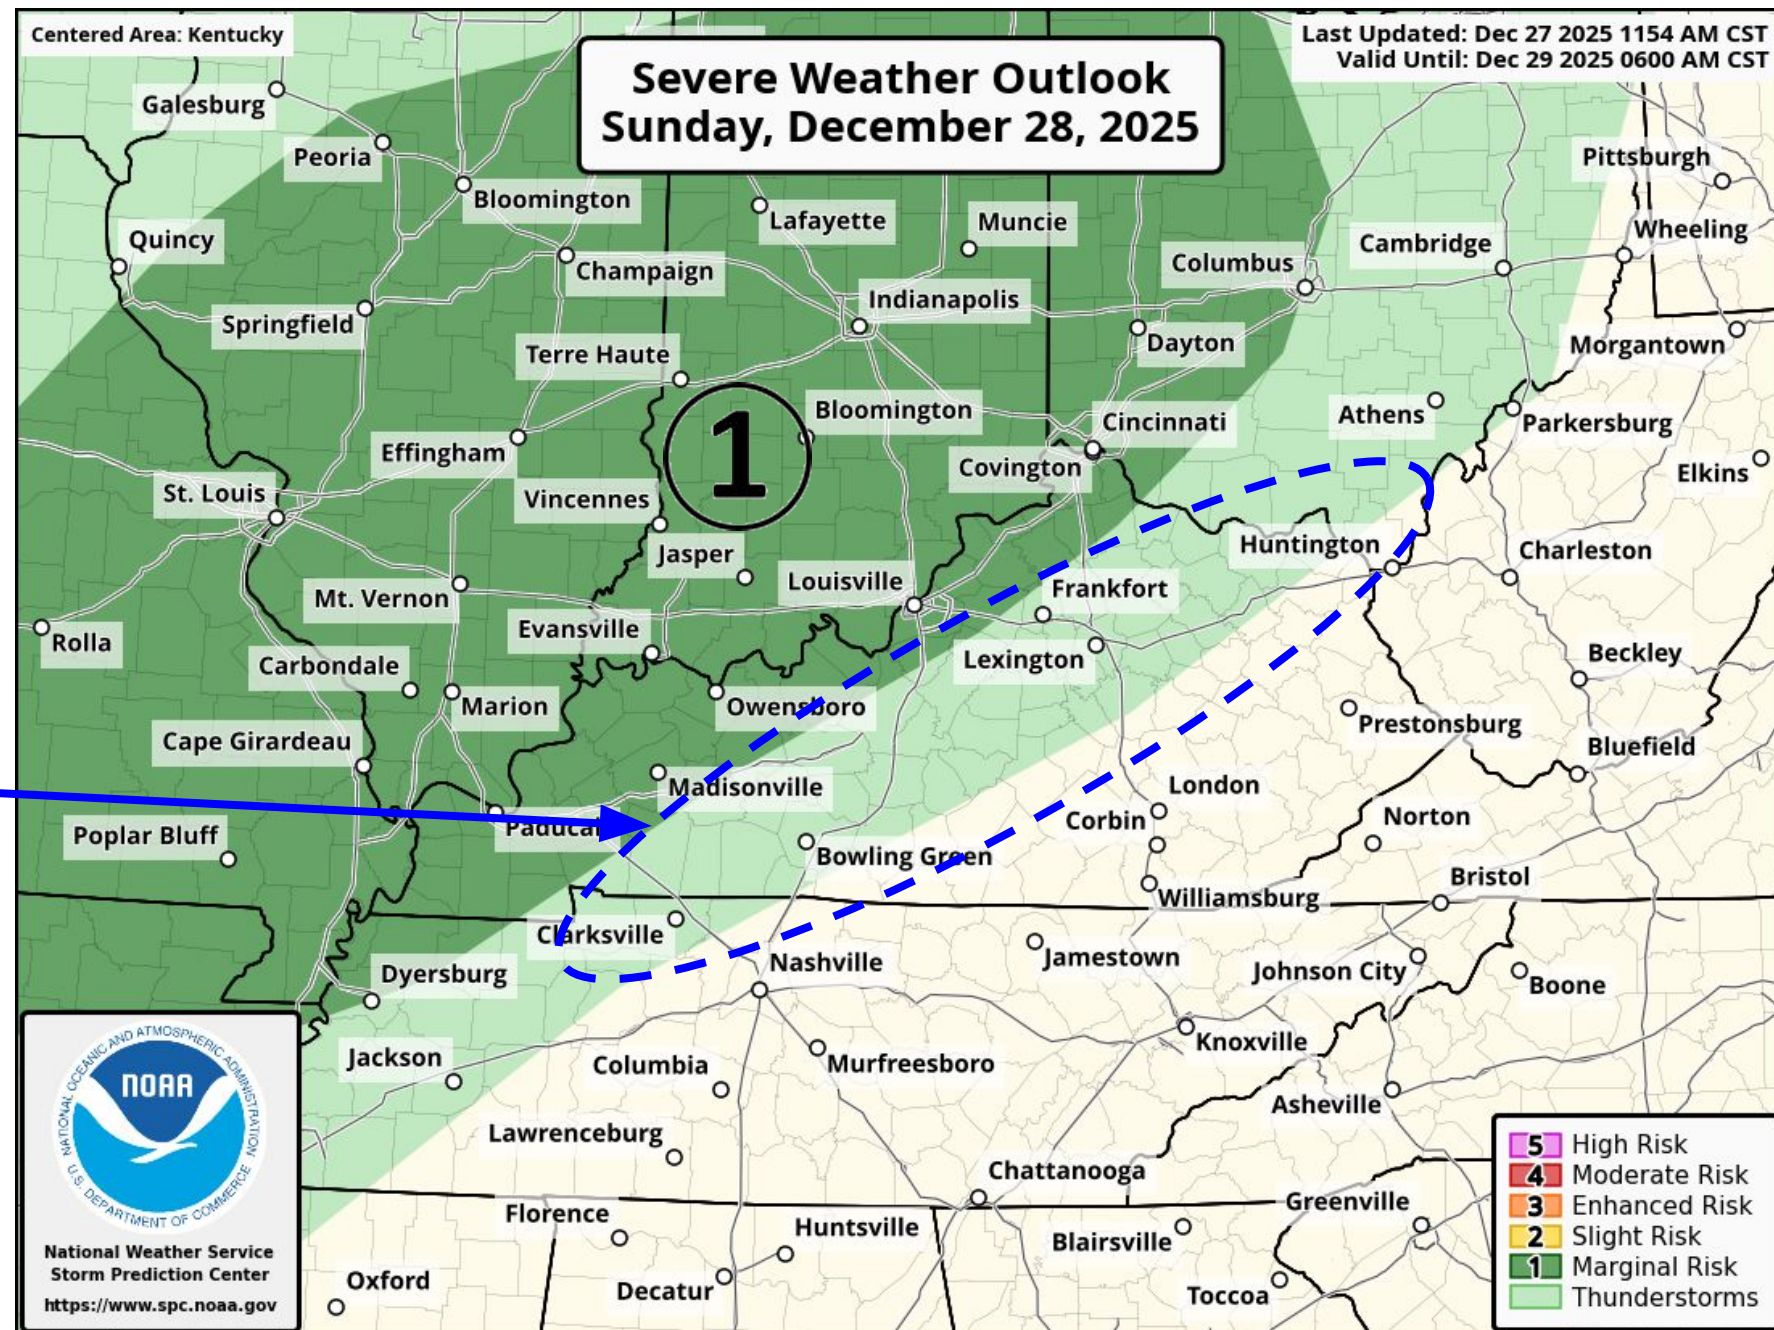

- A strong cold front will race through the region Sunday night, bringing a band of showers and strong gusty winds.
- Strong wind gusts of 40+ mph likely, and localized severe winds of 60+ mph possible.
- The line of showers and storms will move through quickly and only last a short time in any location.
- The area circled will still see strong wind gusts and a line of showers! Don't assume you're in the clear because your area is not within the **Marginal Risk**.
- Localized damaging wind gusts between **7 PM Sunday - 1 AM EST Monday**.

Large Drop in Temperatures

December 27, 2025
2:49 PM

Sunday to Monday

Key Messages

- Record warm temperatures in the low to mid 70s expected on Sunday.
- A strong cold front Sunday night will plummet temperatures by Monday morning. We could see a 40-50° temperature drop in 12 hours between Sunday evening and Monday morning.
- Highs on Monday will be in the 30s.
- Coldest wind chills in the teens on Monday and single digits on Tuesday.

Impacts

- Cold temperatures and wind chills may catch some off guard after record warm temperatures.
