

National Weather Service in Romeoville, Illinois Seeks Students for Summer Volunteer Internship

Description - The National Weather Service in Romeoville, Illinois seeks motivated students that desire to learn more about the operations in a local weather service office. In this internship, students will learn many aspects of the day-to-day operations of the office, including warning operations and forecast creation as well as observation and product quality control. In addition, students will have the opportunity to participate in office research and outreach. This will give students the opportunity to determine whether a career with the National Weather Service may be right for them.

In Person vs. Remote - It is currently expected that this volunteer internship will be conducted in-person at the NWS office in Romeoville. If COVID-19 protocols change, it is possible that some of the work for this internship will be done remotely.

Length of Internship - Averages around two days per week (~10-20 hours) starting in the second half of May and continuing through early August. We would like students to commit to at least 8 hours. This is an **unpaid** internship.

Eligibility - At least a half-time student pursuing an undergraduate (or graduate) degree in meteorology or atmospheric science (or related field) that has (by summer 2023) completed their sophomore or junior year.

What we need from you - A **cover letter** stating your interest in the internship and why we should select you. In addition, please send your **resume** that includes the coursework you have completed and any related experience. Please include at least two references. Finally, please include a copy of your most recent **transcript**. Unofficial copies are acceptable.

Deadline - Wednesday, March 1st, 2023

How you will be chosen - Applicants will be selected based on a combination of coursework, references, resume, cover letter, and a potential phone interview. For more information, including Resume Tips, see [weather.gov/lot/student_opportunities](https://www.weather.gov/lot/student_opportunities)

Please send your information to: kevin.donofrio@noaa.gov

We look forward to your application!

Kevin Donofrio
Science and Operations Officer
