LAKE COUNTY --- 0.1 E ROUND LAKE [42.35, -88.10], 1.6 ESE GAGES LAKE [42.34, -87.95]				
	08/02/15 19:38 CST		1M	Tornado (EF1, L: 7.51 mi , W: 300 yd)
	08/02/15 19:53 CST		0	Source: NWS Storm Survey
The tornado touched down near Cedar Lake Road in Round Lake where tree damage occurred. The tornado moved east and damaged hundreds of trees along the 7.5 mile long path, including dozens that were snapped at the base or uprooted. The most significant tree damage was noted in the subdivisions of Grayslake and Wildwood. A roof was blown off of a restaurant along Illinois Route 134 with a sign from the restaurant ending up over two miles away in Grayslake. Several homes and businesses suffered roof damage from either falling trees or loss of shingles. A large part of the roof of the Grayslake Central High School was blown across the street. A nearby skatepark was heavily damaged. The last points of damage were noted along Illinois Route 120 just west of I-94 in unincorporated Wildwood.

An isolated supercell thunderstorm developed over north central Illinois and moved across portions of the Chicago metropolitan area during the afternoon of August 2nd, producing large hail and severe winds. A 35 year old man was killed at an outdoor event in Wood Dale when a large tent collapsed causing a beam to strike the man. Another 20 people were injured, including three seriously injured. One of the seriously injured, an 81 year old woman died from her injuries in January 2016. Additional thunderstorms formed later in the evening producing severe weather, including a tornado near Grayslake.

Storm Data and Unusual Weather Phenomena - August 2015

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
Numerous reports of high water and drainage issues across the northeast and southeast portions of Rockford. Cars were stranded in standing water. Areas hit were the intersections of Sandy Hollow and Alpine, as well as streets north of 9th Avenue between 11th and 15th Streets, Churchill Park and the intersection of State and Perryville. Numerous reports of flooded basements.				

GRUNDY COUNTY --- 0.5 N CENTRAL CITY [41.24, -88.28], 0.9 NE GARDNER [41.19, -88.31]				
	08/18/15 18:30 CST		10K	Thunderstorm Wind (EG 65 kt)
	08/18/15 18:32 CST		0	Source: Social Media

Roof off of garage in Central City neighborhood just north of Braceville. Small tree limbs and power lines down in the area. Also, Gardner Fire Department estimated 60 mph winds.

WILL COUNTY --- 1.6 NE (1C5) BOLINGBROOK CLOW AIRPORT [41.72, -88.11], 1.5 WNW BARBERS CORNERS [41.73, -88.10]				
	08/18/15 18:55 CST		0	Tornado (EF0, L: 0.93 mi, W: 75 yd)
	08/18/15 18:57 CST		0	Source: NWS Storm Survey

A tornado touched down in extreme southeast Naperville, and several hardwood trees were snapped or damaged and a softwood tree uprooted. Maximum winds were estimated at 80 mph. This tornado continued into DuPage county.

DU PAGE COUNTY --- 3.4 W WOODRIDGE [41.73, -88.10], 2.1 S BELMONT [41.75, -88.06]				
	08/18/15 18:57 CST		0	Tornado (EF0, L: 2.26 mi, W: 75 yd)
	08/18/15 19:00 CST		0	Source: NWS Storm Survey

This is a continuation of a tornado that began in Will County. A tornado touched down in extreme southeast Naperville, and several hardwood trees were snapped or damaged and a softwood tree uprooted. Maximum winds were estimated at 80 mph.

WILL COUNTY --- 1.1 NNW BARBERS CORNERS [41.73, -88.08]				
	08/18/15 19:05 CST		0	Thunderstorm Wind (EG 50 kt)
	08/18/15 19:05 CST		0	Source: Public

Several 2-4 inch branches down and an 18-20 inch tree top snapped off in Green Valley Forest Preserve.

DU PAGE COUNTY --- 0.8 W DOWNERS GROVE [41.80, -88.01], 0.8 W DOWNERS GROVE [41.80, -88.01]				
	08/18/15 19:06 CST		50K	Tornado (EF0, L: 0.24 mi, W: 75 yd)
	08/18/15 19:07 CST		0	Source: NWS Storm Survey

A brief EF-0 tornado touched down in DuPage county in Downers Grove. Maximum winds were estimated at 70 mph, with a path length of 0.25 miles and path width of 50-75 yards. A few hardwood trees snapped, one snapped a power pole and caused minor garage damage. Also a car parked underneath pole was crushed.

Isolated supercell thunderstorms developed during the late afternoon over Livingston and McLean counties and tracked northeast toward the Chicago metro through the early evening. There were two separate and brief EF-0 tornado touchdowns in Livingston County: one near Cornell and the other north of Chenoa. No damage was observed with these brief touchdowns. The supercell thunderstorm that produced a brief EF-0 tornado near Cornell maintained persistent rotation as it tracked across Grundy County, with numerous photos of a very low wall cloud, and reports of possible brief funnel clouds at times near Kinsman and Mazon.

A line of strong to severe storms producing torrential rainfall moved in behind the supercell thunderstorms, producing sporadic wind damage in portions of northern Illinois and also flash flooding in portions of Rockford. Two additional EF-0 tornadoes associated with rotation embedded within the line of storms were confirmed: the first from extreme southeast Naperville to far eastern Woodridge, and the second a brief path through Downers Grove.

The 2.87" of rain that fell at Rockford Airport on August 18th set a new record for the date, breaking the previous record set in 2005.

INDIANA, Northwest

PORTER COUNTY --- 0.7 N WILLOW CREEK [41.59, -87.18]
