</table>
Strong thunderstorms, some supercells, developed over northeast Illinois from early afternoon through early evening in a very unstable airmass. The first storm pounded Kankakee county with hail up to golfball size. Other storms quickly developed in northern Cook, and in McHenry and Lake counties. Golfball size hail hit the areas of Buffalo Grove, Wheeling, and Deerfield along Lake-Cook Road. The hail damaged police cars and cracked the windshield of a vehicle in Wheeling. A car was dented in Deerfield. This storm also blew down tree limbs in Deerfield. Another storm in Ottawa in LaSalle county produced hail the size of golfballs, injuring a person at Chambers and Glover Streets. 60 mph winds in and near Ottawa damaged corn crops and blew tree limbs down on the road. A bolt of lightning struck a tree in Ottawa causing the tree to fall onto a fence and pool which were damaged. A storm dropped hail in southern Grundy and southwest Will counties. Hail damaged crops from north and east of Kinsman to just west of Verona, just east of Mazon, north and east of Gardner, and north of Morris in Grundy county. Trees, large limbs and power lines were blown down in Gardner. Hail also fell from near Wilmington in Will county into Kankakee county near Essex. Another storm in northern Will county dropped hail up to 1.25 inches in diameter from the far west side of Joliet and Plainfiled near Drauden and Caton Farm, across I-55 and Route 30, to I-55 and Weber Road in Romeoville and Bolingbrook. This storm also caused tree damage in Lemont in Cook county. Later in the afternoon a storm dropped hail 1 to 2 inches in diameter across DuPage county. Some locations included Army Trail and Gary in Bloomingdale, 2 miles north of Route 64 and 59 in West Chicago, Route 83 and Grand in Addison, Glendale Heights, Wheaton and Lombard. The biggest hail report was 2 inches at Carol Stream. Other storms produced hail near Ashkum in Iroquois county and into northwest Indiana. Storms produced more hail in southern Cook and northern Will counties in the early evening before ending. Tree branches were also blown down around Orland.
A line of thunderstorms moved across northern Illinois producing wind damage during the morning of July 7th. A tree and limbs were blown down north of Byron in Ogle county. Farm Service Agency reported a swath of corn flattened by winds south of Ashton to near Reynolds Road in Lee county. Tree limbs were blown down in Genoa and DeKalb county. Trees and power lines were blown down in Boone county. Officials estimated winds to 70 mph in Marengo where utility poles were bent over. A large tree limb fell onto a house in Huntley. Power lines were blown down along Hill Avenue in Aurora. A large tree was blown down on Route 126 in Plainfield in Will county. Large limbs were also down in Joliet. In Cook county, a spotter measured a 61 mph wind gust in Midlothian and limbs were blown down in Alsip. A large tree fell in Stickney in Cook county, knocking down power lines and damaging three cars. A few trees were blown down in Yorkville and Oswego in Kendall county. Lightning struck a tree 15 to 20 feet from a home in Riverwoods in Lake county. It is unclear how the lightning started a fire in the home, but the lightning may have traveled to the house by underground wires. The home was destroyed by the fire.
Thunderstorms brought damaging winds to portions of north central and northeast Illinois during the evening of July 7th. In Lee county 60 mph winds were reported at I-39 and U.S. 30 and trees were blown down southeast of the I-88/I-39 interchange. In DeKalb county, trees were reported down in DeKalb, Sycamore, and Cortland. A tree fell onto two cars in Waterman in DeKalb county, completely destroying both cars. In LaSalle county, trees, tree limbs and power lines were blown down in Leland, Earlville, Lostant, and Streator. Five miles southeast of Ransom, a 60 mph wind gust was reported. An 85 foot tall tree was blown down on a house in Wedron. Trees were damaged in Plano in Kendall county, at Forest and High Streets in Aurora in Kane county and in Channahon near the Grundy/Will county line. The hardest hit area was Morris in Grundy county. Trees, tree limbs and power lines came down knocking out power, damaging homes, businesses and vehicles. Signs were also blown down. Trees were damaged in Kankakee. Police reported 60 to 70 mph winds in Iroquois County and a construction trailer was destroyed near Watseka.

The wind pushed a utility pole over and small trees were blown over.

Nickel size hail fell at Fox Lake, 1 inch hail fell at Gurnee, and penny size hail fell at Lincolnwood. The line of storms that produced the hail also produced a prominent shelf cloud which drew a lot of public and media attention. There were some reports of wall clouds and funnel clouds in McHenry County. A 17 year old male was struck by lightning in a parking lot in Oglesby in LaSalle county and was critically injured.

De Kalb County
Sandwich to Somonauk
09 1046CST 1050CST
Emergency management reported a 62 mph wind gust at Sandwich. Tree limbs were blown down at Somonauk.
Cold air aloft under an upper level low pressure system brought storms with large hail to the area. A spotter estimated winds to be near 70 mph near Sandwich and tree limbs were blown down near Lisbon in Kendall county. A radio station reported 60 mph winds in LaSalle. Some specific hail reports included penny size hail at highways 52 and 23 in LaSalle county, penny size hail at I-80 and I-55 in Will county. The Lee County Farm Service Agency reported a swath of hail damage from the west side of Nelson to near the

Walnut size hail, 1.5 inch diameter, was reported at Renwick Road and Route 30. Hail 1.25 inches in diameter was reported at Canton Farm Road and Route 59 and on the west side of Joliet. Penny, nickel, and quarter size hail was reported across several locations.

Cook County
Chicago 15 0412CST 0 0 Thunderstorm Wind (EG52)
A line of severe thunderstorms moved southeast into northern Illinois from Wisconsin during the early morning hours of Tuesday July 15th. Several trees, large tree limbs and power lines were blown down across northeast Winnebago county. A woman was trapped in her home near Roscoe from fallen power lines that surrounded her home. Four 35 foot light posts were blown down and two construction trailers were damaged near Prairie Rose. A large metal roof was ripped off a building in Roscoe. Numerous trees were blown down in Belvidere in Boone county. Large tree limbs were blown down in Crystal Lake in McHenry County and large tree limbs were blown down in Franklin Park in Cook county. A lightning strike damaged several pieces of equipment at the Batavia Emergency Service Center. Power lines were blown down in Carpentersville in Kane county. A gust to 62 mph was reported on the west side of Chicago. Winds gusted to 70 mph across Joliet and Plainfield in Will county. Several trees, large tree limbs and power lines were blown down and a construction trailer was demolished near Shorewood. Hail was reported across many locations of Northern Illinois with the largest hail reported across Will county. There was also minor flooding reported across parts of Joliet in Will county and along Route 47 near Morris in Grundy county. Rainfall ranged between one and two inches in less than an hour across parts of Will and Grundy counties. Lightning struck a wooden storage shed in Naperville in Dupage county. The shed contained tools, copper tubing and other materials that were quickly consumed by fire.

Severe thunderstorms formed across far northern Illinois during the afternoon hours of July 17th and moved south across the Chicago Metro area through the evening. Several dozen reports of hail were received during these thunderstorms. Trees, tree limbs and power lines were blown down across many areas including Glenwood and Chicago in Cook county. Winds gusted to as high as 90 mph at 183rd and Halstead Roads in Lansing in Cook county. Lansing was hit the hardest with trees, tree limbs and power lines blown down across much of the city. Large tree limbs were also blown down in Steger in Cook county and damaged a house. Several trees, large tree limbs and power lines were blown down from Steger to Crete in Will county. Thunderstorms redeveloped later in the evening and moved south producing more hail. A wind gust to 70 mph was reported in Plainfield in Will county. Small trees were blown down 7 miles southeast of Oswego toward the Kendall Will county line. Numerous trees, large tree limbs and power lines were blown down in Bradley and Kankakee in Kankakee county. A gust to 60 mph was reported in Chatsworth in Livingston county. Winds gusted to 70 mph in Watseka where several trees, large tree limbs and power lines were blown down. Two of the trees fell onto houses in Watseka causing damage to each building. Minor flooding of some streets and low lying areas was reported across southern Cook county.

A weak tornado touchdown near the Hideaway Lake Camp near Yorkville in Kendall county. The main line of thunderstorms had already moved east of the area when a small thunderstorm developed near Yorkville and quickly interacted with a lake breeze moving west through the same area. This interaction helped to form a circulation which spun up as a weak tornado. Numerous trees were damaged and some were blown down. Damage occurred to several trailers and campers from the falling trees and tree limbs. The tornado appeared to skip along the ground with the strongest winds staying aloft affecting mainly the trees. The tornado lasted about two minutes.

A line of severe thunderstorms moved east across north central Illinois during the early afternoon hours of July 27th. Additional thunderstorms developed ahead of the first line across the southern portions of the Chicago Metro area producing very heavy rain and widespread flooding. As the first line of severe storms reached Lee county, numerous trees, tree limbs and power lines were blown down in Amboy in Lee county. Trees were blown down onto houses in West Brooklyn, also in Lee county. Winds as high as 65 mph blew down trees, large tree limbs and power lines across many locations in La Salle county. Trees were blown down in La Salle. Trees were uprooted near Lake Holiday in far northeast La Salle county. Large tree limbs were blown down in Mendota, Norway and one mile east of Serena. A grain bin was crushed and partially lifted off its base in Ottawa and a tree fell onto a car in Seatonville, both in LaSalle county. Wind damage was widespread across Kendall county as well. Trees, large tree limbs and power lines were blown down in Plano, Newark and Oswego as well as many rural parts of the county. Trees were blown down blocking Illinois Route 71 west of Oswego. Trees 20 inches in diameter were blown down southeast of Plano along Lynwood Drive. Southwest of Plano, a large tree limb fell onto a roof and broke a skylight. Winds gusting to 74 mph in Sandwich in De Kalb county, where numerous large trees were blown down or uprooted and a 20 inch diameter tree fell onto house. Several trees and tents were blown down at an Antique show in Sandwich in DeKalb county where one person suffered a broken arm and another was hit in the head by a falling tent pole. Canopies were also blown off of stores in Sandwich. A two and a half foot diameter tree was snapped at its base in Morris in Grundy county. A gust to 60 mph was reported in Naperville in Will county. A one foot diameter tree was snapped in half on Winthrop Street, east of Larkin and north of Black Roads in Joliet. Large tree limbs and power lines were blown down in Kankakee. A tree fell onto power lines in Sheldon in Iroquois county.

In addition to the strong winds and wind damage, very heavy rain fell across much of Will and southern Cook counties. Most of the rain fell in a two hour period with 5.00 inches reported in Shorewood, 4.90 inches at the National Weather Service office in Romeoville, 4.10 inches in Midlothian, 4.00 inches in Joliet, 3.56 inches in Orland Park, 3.50 inches in Plainfield and South Holland, and 2.05 inches in Plano in Kendall county. Widespread street flooding was reported across all of north and central Will and southern Cook counties and many homes and businesses suffered water and flood damage. Retention ponds were flooded and backing up into yards and streets in Plainfield in Will county. Creeks were overflowing their banks in Midlothian in Cook county. Several roads had two to four feet of standing water and were impassable, some roads were partially washed away. Several cars were submerged at the intersection of Lagrange and Nebraska streets in Frankfort in Will county. A Will county sheriff's car was destroyed when it pulled into a flooded subdivision and sink. Several people had to be rescued from their cars after becoming trapped by flood waters in Frankfort, Lockport, Joliet, and Plainfield in Will county. A creek bridge was washed away in Lockport township. A man indirectly died from the flooding after walking into his flooded basement and being shocked because the water was in contact with electricity. An alley between Illinois and Main Streets in Lemont in Cook county was partially washed away by fast flowing water. 100 homes and 13 businesses were flooded in Lemont. Flood waters surrounded several buildings in Tinely Park. A 15 foot berm was washed away in unincorporated Palos Township which caused massive street and basement flooding in the Sandberg Glen subdivision. Street flooding was also reported in Plano in Kendall county.
Thunderstorms developed over northwest Illinois during the late afternoon hours of July 31st and moved southeast across parts of northern Illinois during the evening hours. The largest hail reported was 1.5 inches in diameter in Leaf River in Ogle county. Power lines were blown down in Roscoe. Large tree limbs were blown down in DeKalb. Trees and power lines were blown down in Sugar Grove in Kane county. Trees and power lines were blown down across many parts of northern Kendall county where a wind gust to 60 mph was reported in Oswego. Trees were blown down blocking roads in Plainfield in Will county where a wind gust to 70 mph was reported. Minor flooding was also reported across parts of Rockford where 1 to 2 inches of rain fell.

Thunderstorms moved across northern Lake and northern Porter counties during the early morning hours of Saturday July 5th. Numerous trees and power lines were blown down. Minor flooding was also reported across some locations in northwest Indiana.
INDIANA, Northwest

A line of thunderstorms moved from northern Illinois into northwest Indiana during the morning of July 7th. Spotters reported wind gusts to 60 mph at Hammond, Gary, and Lowell in Lake County. Large tree limbs were blown down in DeMotte in Jasper County. Several trees, tree limbs and power lines were blown down across Porter county.

Thunderstorms formed over far northeast Illinois during the afternoon hours of July 17th and moved southeast into northwestIndiana during the evening hours. Trees, large tree limbs and power lines were blown down across many parts of Lake county, including St. John, Munster and Cedar Lake. Large tree limbs and power lines were blown down in St. John. A tree fell onto a house in Griffith causing significant damage to the building. A large tree also fell onto a house in Hobart causing massive damage to the second floor. An old lumber storage building was blown down near Dyer. Many other areas received large hail. Very heavy rain fell across Lake and Porter counties which caused flooding of some streets and low lying areas. A few roads were impassable because of high water. Rainfall amounts ranged between 1 and 2 inches but the rain fell in a very short period of time. 2.1 inches of rain was reported in just 15 minutes in Munster.
