A large barn built in 1946, was blown down.
A semi truck was blown over on Interstate 39.
A chimney and siding were blown off a house. Utility poles were also blown down. Witnesses reported a possible gustnado with this line of thunderstorms.
Trees, large tree limbs and power lines were blown down. Two grain bins were blown over. A gas pump at a gas station was blown over, damaging a car.

Several tree limbs were blown down along with several screens blown out of windows. A small canvas shelter was blown down on a patio.
A tree was blown down on Gun Club Road.
A four inch diameter tree limb was blown down on Wake Island Drive. Manhattan Road was blocked after a tree was blown over.
Several small tree limbs were blown down.
Tree limbs were blown down.
Trees were blown on to buildings in the 4700 block of Fransisco and the 1400 block of North Kostner.
A tree was uprooted.
A large tree was blown down near Keeney and Sheridan Roads.
ILLINOIS, Northeast

Cook County

Oak Lawn 04 1345CST 0 0 Thunderstorm Wind (EG50)
Blowing wood planks from a building under construction in the 5200 block of west 95th street caused damage and broken windows to garages in the area. Tree limbs were also blown down.

Cook County

Des Plaines 04 1353CST 0 0 Thunderstorm Wind (EG50)
Trees were blown down at River and Golf Roads.

Cook County

Evanston 04 1353CST 0 0 Thunderstorm Wind (EG50)
A large tree fell and blocked part of South Boulevard.

Will County

5 NW Beecher to 4 NW Beecher 04 1600CST 0 0 Thunderstorm Wind (EG60)
Numerous trees were blown down in the Raccoon Grove Forest Preserve. At the Pheasant Lake Estates, a 6 inch tree was uprooted, a trailer was damaged, a shed was moved and leveled and a car port was blown down.

Will County

Crete 04 1600CST 0 0 Hail(0.75)
Penny size hail was reported near Monee and Western Roads.

Will County

East Portion 04 1620CST 0 0 Flash Flood
Several roads were flooded in Crete and Beecher. In Crete in Will County, 3.75 inches of rain was reported and in Park Forest in Cook County, 1.90 inches was reported.

Will County

3 SE Monee to Crete 04 1623CST 0 0 Thunderstorm Wind (MG52)
A metal storage shed was damaged three miles southeast of Monee and a gust to 60 mph was recorded in Crete.

Cook County

Cicero 04 1922CST 0 0 Hail(0.75)
A line of thunderstorms quickly moved across northern Illinois during the afternoon of June 4th. This line of thunderstorms produce damaging winds and blew down trees and tree limbs across many areas. Several airports measured gusts just below severe criteria. Aurora measured a gust to 56 mph at 1214 pm CST and Midway measured a gust to 54 mph at 1316 pm CST. As these thunderstorms moved east over Lake Michigan by mid afternoon, an outflow boundary from these thunderstorms became stationary across southern Will and southern Cook counties. Thunderstorms redeveloped along this outflow boundary during the late afternoon and early evening hours. These storms produced torrential rains which caused flooding as well as some wind damage

Ford County

Gibson City 05 1225CST 0 0 Hail(1.00)

Iroquois County

2 N Wellington 05 1313CST 0 0 Thunderstorm Wind (EG55)
Eleven utility poles were blown down along a half mile of County Road 500N. Power lines and tree limbs were also blown down.

Kankakee County

St George 07 1500CST 0 0 Thunderstorm Wind (EG50)
A large cottonwood tree was blown down as well as several large tree limbs.

Ford County
2 SW Gibson City
13 1840CST
Five utility poles were blown over along Route 54.

Iroquois County
Buckley to Cissna Park
13 1920CST
One large tree was blown down at Buckley Lake and a tree fell on to a truck in Cissna Park. Tree limbs were also blown down across southwest Iroquois County.

Dry conditions developed during April and May 2005 across northern Illinois. By June, the dry conditions had developed into a severe drought with many locations seeing one of the driest Junes on record. Chicago Ohare Airport measured just 0.76 inches of rainfall during June 2005, which made it the third driest June on record in Chicago. Normal June precipitation for Chicago Ohare is 3.63 inches. Rockford Airport measured 2.45 inches during June 2005. However, 1.06 inches of this total fell on the 29th.
ILLINOIS, Northeast

June precipitation for Rockford Airport is 4.80 inches. Crops across much of northern Illinois began to show serious problems by middle to late June. Several communities banned lawn watering and began other water restrictions to maintain adequate supplies. Several small grass fires developed.

Many locations received less than one inch of rain for all of June 2005. Some of the driest locations included, Shabbona in DeKalb County, 0.26 inches; Elgin in Kane County, 0.46; Barrington in Cook County, 0.53; Lake Villa in Lake County, 0.58; Plainfield in Will County, 0.59; Elburn in Kane County, 0.63; Woodstock in McHenry County, 0.64; Streator in Livingston County, 0.73; Rochelle in Ogle County, 0.76; Chicago Botanic Gardens in Cook County, 0.78; Paw Paw in Lee County, 0.81; Marengo in McHenry County, 0.82; Oak Brook in Dupage County, 0.83; Genoa in DeKalb County, 0.87; Antioch in Lake County, 0.97.

In addition to the drought conditions, June 2005 was the 5th warmest June on record at both Chicago and Rockford. Chicago reached a high temperature of 90 degrees or warmer for the last 8 days of the month, reaching 96 degrees on the 24th. Rockford also reached 96 degrees on the 24th.
