<u>DISTRICT OF COLUMBIA</u>									
District of Columbia									
	12	0430EST-0800EST			0	0	25K		Heavy Snow
A historic snowstorm occurred on February 11-12 across the Mid-Atlantic. Total snowfall was 8 to 9 inches across the District of Columbia. There were reports of downed power lines and scattered outages due to the heavy snowfall. Total power outages were reported to be around 300,000 customers around the Washington/Baltimore region. Amtrak reported major delays and cancellations all along the northeast rail corridor, which passes through Baltimore and Washington, D.C. There were also major delays at all 3 major hub airports in the region, Washington Dulles International, Washington Ronald Reagan National, and Baltimore/Washington Thurgood Marshall International.									
District of Columbia									
	17	0900EST-1100EST			0	0	10K		Strong Wind (EG45)
A strong cold front brought very strong and gusty winds to the Mid-Atlantic on February 17. Wind gusts up to 50 mph occurred across the region. Scattered power outages occurred due to downed trees or power lines.									
District of Columbia									
	23	0300EST-0800EST			0	0			Dense Fog
Areas of dense fog occurred during the early morning.									

<u>MARYLAND, Central</u>									
Frederick County									
Ridgeville	04	1945EST			0	0	10K		Thunderstorm Wind (EG50)
Newspaper reports indicated significant damage to a log house near Libertytown in Frederick County, which occurred during the evening. A large old oak tree was downed, as well as a few other smaller trees. Trees and power lines were also downed near Ridgeville and Westminster.									
Frederick County									
Libertytown	04	1945EST-1950EST			0	0	100K		Thunderstorm Wind (EG55)

	11-12	2045EST-0900EST			0	0	40K		Heavy Snow
A historic snowstorm occurred between February 11-12 across the Mid-Atlantic. Storm total snowfall across much of Maryland ranged generally between 8-14 inches. A period of thundersnow occurred overnight and early in the morning of the 12th across portions of the northern Washington, D.C. suburbs and the Baltimore suburbs of Maryland, where localized snowfall ranged between 14 to 22 inches. The highest snowfall total occurred at Columbia Hills, MD, in Howard County, where snowfall was 22.5 inches. There were also numerous reported of downed trees and power lines, which caused significant power outages. Local utility companies reported total power outages of around 300,000 customers in the Washington/Baltimore region. Particularly hard hit were sections of Anne Arundel County, which had over 100 roads closed due to the combination of heavy snow and downed trees and power lines. Amtrak reported major delays and cancellations all along the northeast rail corridor, which passes through both Baltimore and Washington, D.C. There were also major delays at all 3 major hub airports in the region, Washington Dulles International, Washington Ronald Reagan National, and Baltimore/Washington Thurgood Marshall International.

VIRGINIA, North									
Augusta County									
	11-12	1730EST-0500EST			0	0			Heavy Snow
A historic snowstorm occurred between February 11-12 across the Mid-Atlantic. Storm total snowfall across much of Northern and Central Virginia ranged generally between 8-14 inches. The highest snowfall totals occurred in the Northern Virginia suburbs of Washington, D.C. where reports ranged up to 15 inches. There were also isolated reports of significant drifting of snow, mainly in and near Albemarle County. Finally, there were several instances of downed power lines and trees due to the heavy snow. This caused significant power outages in some areas. Total power outages were reported to be around 300,000 customers around the Washington/Baltimore region. Amtrak reported major delays and cancellations all along the northeast rail corridor, which passes through Baltimore and Washington, D.C. There were also major delays at all 3 major hub airports in the region, Washington Dulles, Washington National, and Baltimore/Washington.
