#### **Alexandria (C)**

<b>Alexandria</b>	<b>09</b>	<b>1602EST</b>			<b>0</b>	<b>0</b>			<b>Thunderstorm Wind (MG55)</b>
-------------------	-----------	----------------	--	--	----------	----------	--	--	---------------------------------

A wind gust of 63 MPH was recorded.

Thunderstorms with high winds, hail, and isolated tornadoes moved through Northern and Central Virginia during the afternoon and early evening hours of the 9th. In Nelson County, a few trees were downed in the northern end of the county near Wintergreen. In Albemarle County, a tree was downed near Afton. In Augusta County, numerous trees were downed including some which fell in Stuarts Draft. In Rockingham County, trees were downed in Broadway. A tree was also downed onto Springs Road. In Shenandoah County, trees and power lines were downed in Edinburg. A few trees were also downed in the Seven Bends area just east of Woodstock. In Frederick County, trees and power lines were downed two miles north of Winchester. Trees were also downed onto Route 568 (Cedar Grove Road) and Warm Springs Road near Cedar Grove. In Clarke County, trees were downed onto Route 606 and Route 340 three miles east of Berryville.

In Loudoun County, two tornadoes touched down from the same thunderstorm. The first tornado was the strongest and longest lasting. It was ranked as an F1 and was on the ground for 10 miles. It first touched down near Round Hill and lifted just before reaching Highway 15 about 3 miles south of Leesburg. The tornado was up to 100 yards wide and was estimated to have produced winds up to 90 MPH. On Main Street in Round Hill a tree was downed onto a house. A home under construction was also damaged. Several other trees were downed onto roads on the south side of town, including at the intersection of Airmont Road (Route 719) and Yatton Road, North Bridge Street, and the intersection of East Loudoun Street and New Cut Road. Widespread tree damage was also reported near the water treatment plant southeast of town. The next area of tree damage was reported near the intersection of Lincoln Road and Hughesville Road just south of Lincoln. One tree was downed onto a van. The last area where tree damage was observed was just west of Route 15 about 3 miles south of Leesburg. The first tornado lifted there and a few minutes later the same storm dropped a second tornado near Ashburn. The F0 tornado touched down briefly near Ashburn Farms with winds estimated around 70 MPH. It was on the ground for one half mile and the light tree damage path from the twister was about 75 yards wide. A few trees were uprooted or snapped along the path and one of the trees fell onto a home. In Purcellville, the storm that produced the tornado in Round Hill dropped quarter sized hail. The storm also produced high winds south of the tornado track. Snickerville Turnpike was closed by downed trees. A wind gust of 46 MPH was recorded at Dulles Airport where a funnel cloud was also spotted.

In Fauquier County, a tree was downed onto a road near Delaplane. In Prince William County, trees and wires were downed near Haymarket. Trees were also downed at the intersection of Lucasville Road and Hastings Drive in Manassas. In Fairfax County, the storm that dropped a tornado near Ashburn produced high winds as it moved through the Chantilly area. Three miles north of Chantilly, a few trees were downed in the Franklin Farms area, including one which fell onto a home. Wind gusts in the vicinity included 46 MPH in Reston and 43 MPH in Chantilly. Another thunderstorm also downed trees across the central and eastern portion of the county. A tree was downed near Lake Barcroft. Trees were also downed at the intersection of Braddock and Rolling roads a mile west of Burke. In Fairfax, trees were downed onto Prince William Road. In Falls Church, trees were downed. In Arlington County, many trees were downed. In Alexandria, a wind gust of 63 MPH was recorded at the campus of Northern Virginia Community College.

#### **Arlington County**

<b>Arlington</b>	<b>10</b>	<b>2330EST</b>			<b>0</b>	<b>0</b>	<b>0.50K</b>		<b>Thunderstorm Wind (EG50)</b>
------------------	-----------	----------------	--	--	----------	----------	--------------	--	---------------------------------

A few trees were downed.

Thunderstorms with high winds, very frequent lightning, hail, heavy downpours, and isolated tornadoes moved through Northeast Virginia during the evening of the 10th. In Orange County, small stream flooding was reported along routes 614, 601, and 608 in the northeast portion of the county near Lake of the Woods. In Culpeper County, an F0 tornado touched down near Riva. The tornado pushed northeast and left an intermittent path of tree damage until it lifted near Route 229 about 3 miles north of Culpeper. The tornado was on the ground for 7 miles and was estimated to be about 40 yards wide. The storm also produced a funnel cloud as it passed near the Culpeper Regional Airport just north of Elkwood. Up to 3 inches of rain caused minor flooding across a portion of the county. In Fauquier County, penny sized hail fell in Warrenton. A tree was downed onto Route 603 east of Warrenton. Roads were flooded and a few were washed out in Remington and Bealeton. In Prince William County, trees were downed and nickel sized hail fell in Manassas. Pea sized hail fell in Manassas Park. In Fairfax County, up to 2.5 inches of rainfall caused secondary roads to flood. Small hail fell in Falls Church and McLean. Trees and power lines were downed between Annandale and Springfield, including one tree which fell onto Hooes Road. A few trees were downed onto Compton Road in Centreville. In Arlington County, a few trees were downed in North Arlington.

In Stafford County, an F0 tornado touched down about 5 miles southeast of Falmouth near Route 3. The tornado moved northeast and damaged trees until it lifted near Route 218 on the King George County line. The tornado was about 50 yards wide and was on the ground for 5 miles. In Falmouth, lightning struck a car on Butler Road. Two people inside the vehicle were unharmed. A portion of southbound interstate 95 was flooded by heavy downpours. High water was also reported on Harrell Road, at the intersection of Deacon and Synan roads, and on Route 218 near White Oak. In Spotsylvania County, trees were downed in Chancellorsville. In Fourmile Fork, lightning downed a power pole onto a car lot. One car was set on fire. In addition, a townhouse at the intersection of Fall Hill Avenue and River Road was set ablaze by lightning. In Fredericksburg, an apartment building was struck by lightning. Also, two homes in Normandy Village on Woodford Street caught fire after being hit by lightning. Lightning also damaged asphalt on William Street at Sunken Road. Cowan Boulevard was closed by flooding. In King George County, two tornado tracks were found. The first tornado, and F1, touched down near Route 600 where it crosses the Stafford County line. It stayed on the ground until it hit Fairview Beach, 4 miles to the east. Trees were downed during the rural portion of its track. However, moderate damage was done in Fairview Beach when the twister downed large trees onto 7 trailer homes and 2 houses. Six structures were condemned. The hardest hit areas included Botts Lane in the Fairview Beach Trailer Park and First Street. A second tornado touched down briefly near Hampstead. The weak F0 twister stayed on the ground only 1/10 of a mile. It downed a few trees along its short 50 yard wide path. In addition, high winds from the thunderstorm downed trees and power lines between Arnolds Corner and King George. The dispatch center in King George was also hit by lightning.

#### **Shenandoah County**

### VIRGINIA, North

incredible 3.34 inches of rain was recorded in 55 minutes in Centreville. A total of 2.89 inches was recorded in Vienna. In Arlington County, Four Mile Run overflowed its banks and swept two 22-year-old men off a concrete footbridge near the 800 block of South Arlington Mill Drive. The creek normally runs about 4 feet below the footbridge but the storm's runoff pushed it 6 feet above normal. One of the men was able to grab a branch and some rocks after being washed 1/4 mile downstream and pulled himself to safety with only minor injuries. The other man drowned. The George Washington Parkway and Interstate 395 were also flooded. Several vehicles were caught in floodwaters under the Memorial Bridge. In Falls Church, Broad Street and Route 7 were flooded. Manhole covers and storm drains were also overflowing across the city. In Alexandria, two trees were downed by gusty winds.

A tornado damaged buildings and trees along its 4 mile path.

A thunderstorm that moved through during the early afternoon of the 9th produced an F0 tornado in southeast Jefferson County. The twister touched down near Summit Point and moved southeast on the ground for 4 miles before lifting near Rippon. Winds from the tornado estimated up to 70 MPH downed several trees and a handful of power lines along its path. Near Summit Point, an outbuilding was damaged. Siding was also removed from a house. Ten to twenty trees were downed onto Leetown Road about 1/2 mile south of Summit Point. Trees and power lines were also downed onto Darke Lane West near Rippon.

Penny sized hail fell.

Thunderstorms with hail, high winds, and very heavy downpours moved through the Eastern Panhandle during the afternoon and evening of the 14th. In Mineral County, penny sized hail fell just south of Keyser, in Antioch, and in Short Gap. Flooding was reported in the Burlington, Fountainhead, and New Creek areas. Route 50 was closed when New Creek washed debris onto the roadway near Route 972. Short Cut Road and 6 other secondary roads were also flooded. Downed trees also blocked Route 50. In Grant County, trees were downed just north of Petersburg. Penny sized hail ruined gardens in Sites Hollow. In addition, high winds downed two trees and a storage shed in Sites Hollow. In Hardy County, penny sized hail fell in Fisher. In Pendleton County, quarter sized hail shredded gardens in Upper Tract.
