Friendship School Road flooded and closed at Burnt Mill Creek.

ST. MARY'S COUNTY --- 1.0 SSW OAKVILLE [38.37, -76.66], 0.9 SSW OAKVILLE [38.37, -76.66], 0.9 SSW OAKVILLE [38.37, -76.66], 1.0 SSW OAKVILLE [38.37, -76.66]

08/18/17 22:30 EST	0	Flood (due to Heavy Rain)
08/19/17 01:00 EST	0	Source: Emergency Manager

Flooding persisted on Bishop Road at Burnt Mill Creek.

Heavy rain developed late in the afternoon of August 18th mainly across the Baltimore metropolitan area, and in southern Maryland. This heavy rain was ahead of an approaching cold front. The torrential rains caused numerous instances of flash flooding, with some of the flooding in southern Maryland being slow enough to recede that it lasted well into the overnight hours.

FREDERICK COUNTY --- 0.7 ESE ELLERTON [39.53, -77.54]

08/19/17 19:20 EST	0	Thunderstorm Wind (EG 50 kt)

Storm Data and Unusual Weather Phenomena - August 2017

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<p>Numerous trees were uprooted and large branches snapped along a 1.2-mile long path that paralleled John Marshall Highway just to its south. Some trees fell on power lines and homes. The tornado touched down as the circulation crossed Blantyre Road between Trapp Branch Road and Georgetown Road, then tracked east and lifted two minutes later shortly after crossing Beverlys Mill Road a quarter mile south of John Marshall Highway.</p> <p>KLWX Doppler Radar and FAA Terminal Doppler Radars showed a rotating supercell with a classic hook echo signature crossing these areas between 608 and 610 PM. Tree damage showed a convergent signature, implying rotation reached the ground.</p>

The stream gauge on Broad Run near Bristow exceeded its flood stage for six hours, peaking at over 12 feet. At these levels, Piper Road is flooded and closed near Manassas Airport and the Broad Run VRE station.				
Copious moisture spreading northward from the Gulf of Mexico combined with a weak boundary to produce a complex of thunderstorms during the afternoon of August 11th in northern Virginia. This complex moved eastward through the late afternoon and evening, causing numerous instances of flash flooding. Stream flooding continued through the following morning.
