MARYLAND, Central

ALLEGANY COUNTY --- CRESAPTOWN [39.60, -78.83]

	09/27/07 14:55 EST		0	Hail (0.88 in)
	09/27/07 15:00 EST		0	Source: Trained Spotter

A Trained Spotter reported nickel size hail in Cresaptown, MD.

FREDERICK COUNTY --- THURMONT [39.62, -77.42]

	09/27/07 17:50 EST		0	Thunderstorm Wind (EG 50 kt)
	09/27/07 17:50 EST		0	Source: Fire Department/Rescue

Frederick County Fire and Rescue Department reported a tree down in Thurmont, MD.

An unseasonably warm area of high pressure built across the Mid Atlantic in late September. A cold front moved across the region on September 27, triggering numerous showers and thunderstorms across western and central Maryland. Some of these storms became severe, producing damaging winds and large hail.

WASHINGTON COUNTY --- FUNKSTOWN [39.62, -77.72], HAGERSTOWN [39.65, -77.72]

	09/26/07 17:00 EST		25K	Thunderstorm Wind (EG 50 kt)
	09/26/07 17:05 EST		0	Source: Newspaper

Newspaper clippings reported trees and power lines down in Hagerstown, MD. A tree fell across Bester Street, damaging a house and crushing a pickup truck.

WASHINGTON COUNTY --- HAGERSTOWN [39.65, -77.72]

	09/26/07 19:30 EST		25K	Lightning
	09/26/07 19:30 EST		0	Source: Newspaper

Newspaper clippings reported an office building fire that was caused by a lightning strike. The building that housed 10 offices is salvagable, but there was significant damage to the top floor and roof and smoke and water damage on the lower floors.

Unseasonably warm high pressure build over the Mid Atlantic ahead of a strong cold front. Scattered thunderstorms developed across western Maryland during the afternoon of September 26th in this warm and unstable air mass. A storm in Washington County produced damaging winds that downed trees and power lines. Lightning was also responsible for an office building fire.

VIRGINIA, North

(VA-Z055) STAFFORD, (VA-Z056) SPOTSYLVANIA, (VA-Z057) KING GEORGE

	09/25/07 00:00 EST		0	Drought
	09/30/07 23:59 EST		0	

A portion of the Mid Atlantic hydrologic service area obtained severe agricultural drought conditions from September 25 through the end of the month. This area extended from Spotsylvania County north and east to King George County in east central Virginia. Using a combination of rainfall measurements and radar precipitation estimates, some locations averaged rainfall totals as high as 8 to 10 inches below normal. Severe drought status was first obtained in mid July and lasted through much of August before conditions slightly improved. Several jurisdictions continued water use restrictions. Damage estimates were not available. Several locations were included in primary natural disaster areas due to reductions in farm production. Sources of information included the Virginia Farm Service Agency and the National Drought Monitor.

WEST VIRGINIA, East

GRANT COUNTY --- SCHERR [39.20, -79.17]

	09/27/07 14:29 EST		1K	Thunderstorm Wind (EG 50 kt)
	09/27/07 14:30 EST		0	Source: Emergency Manager

Grant County Emergency Management reported trees down on Route 42 near Scherr, WV.
