From: Tabitha Clarke, NWS Little Rock Senior Service Hydrologist

Subject: Change to Service Frequency of Forecasts for
Petit Jean River Forecast Point in Arkansas

The National Weather Service will begin providing daily forecasts for a flood only river forecast point on the Petit Jean River in Arkansas downstream of Blue Mountain Dam. This change will be effective by June 13, 2026. River forecasts will change from "Flood Only" to "Daily Forecasts" for the following river forecast point:

- Petit Jean River at Danville, AR (DANA4)

River observations and daily forecasts for these points will be available on the new NWPS web site, by June 13, 2026, at <https://www.water.noaa.gov>
