Large trees were uprooted, a carport was damaged, and a shed was overturned.

### OUACHITA COUNTY --- 3.9 NNE BUENA VISTA [33.53, -92.93], 2.1 ESE CAMDEN [33.57, -92.80]

	04/03/14 23:10 CST		2.50M	Thunderstorm Wind (EG 74 kt)
	04/03/14 23:18 CST		0	Source: NWS Storm Survey

The Camden-Fairview High School had damage at the baseball field, where the bleachers were overturned and the dugouts were destroyed, at the football stadium and weight room, at the band building, and at one of the classroom buildings. Hundreds of trees were blown down. Nine homes were destroyed, nine had major damage, 13 had minor damage, and seven were affected. Many power lines were blown down, including a major transmission line, leaving the entire city without power.

## Storm Data and Unusual Weather Phenomena - April 2014

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>DALLAS COUNTY --- 1.0 S DALARK [34.02, -92.88], CARTHAGE [34.07, -92.55]</b>				
	04/03/14 23:12 CST		0.18M	Thunderstorm Wind (EG 70 kt)
	04/03/14 23:30 CST		0	Source: NWS Storm Survey
<p>A bow echo caused a swath of wind damage. Hundreds of trees were snapped off or uprooted and many utility lines were knocked down. A vacant house in Manning was crushed by a falling tree and the roofs of two mobile homes were damaged. Southeast of Tulip, the roof of a house was damaged. In Carthage, a falling tree knocked some windows out of a house and crushed a pickup truck, and a metal building had part of its roof removed. At the Fairview community north of Sparkman, a house caught fire after an accident with candles, which were being used to light the house after power lines were knocked down. The house burned to the ground. Boys 2 and 3 years old were killed in the fire and their father suffered burns while trying to rescue them. Power was knocked out to the entire county.</p>

	04/03/14 23:45 CST		0	Source: Emergency Manager
<p>Trees were blown down. Power was knocked out to the entire county, due to power lines having been blown down.</p>				
<b>CALHOUN COUNTY --- 1.1 WSW SUMMERVILLE [33.52, -92.37], 5.0 ENE HARRELL [33.55, -92.32]</b>				
	04/03/14 23:45 CST		25K	Thunderstorm Wind (EG 61 kt)
	04/03/14 23:48 CST		0	Source: NWS Storm Survey
<p>Numerous trees were blown down.</p>				
<b>BRADLEY COUNTY --- 2.6 NNW FARMVILLE [33.57, -92.19], 2.0 WSW CROSS RDS [33.57, -92.18]</b>				

## Storm Data and Unusual Weather Phenomena - April 2014

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	04/03/14 23:50 CST		0.50M	Thunderstorm Wind (EG 70 kt)
	04/03/14 23:50 CST		0	Source: NWS Storm Survey

One chicken house collapsed and three others were damaged. Many hundreds of chickens were killed. Numerous trees and power lines were blown down, with some houses and outbuildings damaged by falling trees. A camping trailer tipped over against a power pole.

### JEFFERSON COUNTY --- SULPHUR SPGS [34.18, -92.13]

04/03/14 23:50 CST	10K	Thunderstorm Wind (EG 56 kt)
04/03/14 23:50 CST	0	Source: Emergency Manager

Trees were blown down.

### BRADLEY COUNTY --- WARREN [33.62, -92.07]

04/04/14 00:00 CST	25K	Thunderstorm Wind (EG 56 kt)
04/04/14 00:00 CST	0	Source: Law Enforcement

Many trees were blown down in Warren and elsewhere in the county.

### JEFFERSON COUNTY --- WHITE HALL [34.27, -92.10]

04/04/14 00:00 CST	10K	Thunderstorm Wind (EG 56 kt)
04/04/14 00:00 CST	0	Source: Amateur Radio

Trees and power lines were blown down.

### DREW COUNTY --- 5.0 WNW MONTICELLO [33.66, -91.88], 3.0 NE MONTICELLO [33.66, -91.76]

04/04/14 00:10 CST	50K	Thunderstorm Wind (EG 56 kt)
04/04/14 00:18 CST	0	Source: Newspaper

Many trees and power lines were blown down in the Monticello area and elsewhere in Drew County.

### DESHA COUNTY --- ARKANSAS CITY [33.62, -91.20]

04/04/14 00:58 CST	50K	Thunderstorm Wind (EG 56 kt)
04/04/14 00:58 CST	0	Source: Emergency Manager

A metal storage building was damaged. Trees and power lines were blown down around Arkansas City and elsewhere in Desha County.

**Severe thunderstorms developed on the 3rd ahead of a cold front that was advancing into a warm and humid air mass. During the evening of the 3rd, several of the storms produced very large hail in north central Arkansas. From the late evening hours of the 3rd into the very early morning hours of the 4th, thunderstorms swept across southern Arkansas, producing wind damage. The most severe damage occurred as a bow echo moved through.**

## Storm Data and Unusual Weather Phenomena - April 2014

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	04/14/14 05:15 CST		0	Flood (due to Heavy Rain)
	04/14/14 14:15 CST		0	Source: River/Stream Gage

Heavy rainfall from thunderstorms on the 13th caused the Saline River at Benton to rise above flood stage during the morning hours on the 14th. This river then fell below flood stage during the afternoon hours later that day.

**OUACHITA COUNTY --- 1.7 ENE COLLEDALE [33.56, -92.80], 1.5 NNE CULLEDALE [33.55, -92.79], 2.5 SW LAKESIDE [33.55, -92.76], 2.2 E CAMDEN [33.59, -92.79], 1.8 NE CAMDEN [33.60, -92.81], 1.6 NNW CAMDEN [33.60, -92.84]**

	04/16/14 12:00 CST		5K	Flood (due to Heavy Rain)
	04/20/14 13:00 CST		0	Source: River/Stream Gage

Heavy rainfall from thunderstorms and dam releases caused the Ouachita River at Camden to rise above flood stage around midday on the 16th. This river then fell below flood stage during the early afternoon hours on the 20th.

Two rounds of thunderstorms affected Arkansas on the 13th. The first began in southwest Arkansas during the afternoon and then spread across central and eastern sections. The second round was associated with a cold front that entered northwest Arkansas during the evening and then moved to the southeast.

	04/15/14 00:00 CST		0	Frost/Freeze
	04/16/14 08:00 CST		0	

Following the passage of a strong cold front on the 13th, high pressure settled into Arkansas. Unseasonably cold weather occurred on the mornings of the 15th and 16th. On the 15th, all of northern Arkansas had a freeze, as did some locations in central and southern Arkansas. The lowest temperature recorded on the morning of the 15th was 23 at Mammoth Spring (Fulton Co.). Little Rock Air Force Base's low of 31 tied the record for the latest spring freeze ever recorded there. Only a few stations reported freezing temperatures on the morning of the 16th.

## Storm Data and Unusual Weather Phenomena - April 2014

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>PULASKI COUNTY --- 5.8 W FERNDALE [34.78, -92.65], 1.6 NE ROLAND [34.91, -92.46]</b>				
	04/27/14 18:06 CST	3	13M	Tornado (EF3, L: 14.43 mi , W: 1320 yd)
	04/27/14 18:25 CST	25	0	Source: NWS Storm Survey

A tornado began west of the Ferndale area, near the Saline/Pulaski County line. This was the first of five tornadoes produced by the same supercell thunderstorm. According to the American Red Cross, 7 houses were destroyed, 24 had major damage, 9 houses and 1 mobile home had minor damage, and 76 houses were affected in Pulaski County. Three members of one family, a 48-year-old male, a 20-year-old female, and a 14-year-old female, were killed in a house on Deer Dr. Communities affected included Ferndale and Roland. The tornado crossed the eastern portion of Lake Maumelle. The tornado exited Pulaski County 1.6 miles northeast of Roland, as it crossed the Arkansas River, and entered Faulkner County 0.6 mile southwest of Palarm.

Direct Fatalities: M48PH, F20PH, F14PH

<b>FAULKNER COUNTY --- 0.6 SW PALARM [34.91, -92.46], 4.6 SE NAYLOR [35.13, -92.12]</b>				
	04/27/14 18:25 CST	12	0.21B	Tornado (EF4, L: 24.24 mi , W: 1320 yd)
	04/27/14 18:59 CST	167	0	Source: NWS Storm Survey

This tornado exited Pulaski County 1.6 miles northeast of Roland, while crossing the Arkansas River, and entered Faulkner County 0.6 mile southwest of Palarm. The tornado reached its maximum intensity of EF4 in Faulkner County. It tracked through the River Plantation subdivision and White City, then struck Mayflower, where residences and businesses were destroyed. The tornado then moved across Interstate 40 at Mayflower, throwing cars, trucks, and road construction equipment off the freeway. Traffic along the interstate was backed up for weeks following the tornado as motorists slowed to view the damage. Next, the tornado crossed a part of Lake Conway and moved across part of Camp Robinson, a National Guard facility, where the Arkansas Game and Fish Commission lost a clubhouse, shop, horse barn, residence, metal carports, shower house, and dog kennels. The tornado then continued on through Sattillo and then caused devastation to homes and businesses in Vilonia. About 400 people had taken shelter in a safe room at the Vilonia high school.

According to the American Red Cross, in Faulkner County, the tornado destroyed 261 houses and 121 mobile homes; caused major damage to 77 houses, 29 mobile homes, and 5 apartments; caused minor damage to 96 houses, 14 mobile homes, and 4 apartments; and affected 257 houses, 32 mobile homes, and 4 apartments. Hundreds of cars and pickup trucks were mangled along the path of the tornado.

In Mayflower, a home improvement store was badly damaged, and a vehicle repair shop, millwork company, construction company, electric substation, and church were destroyed. A recreational vehicle dealership and dozens of RVs were also destroyed. The Arkansas Game and Fish Commission eventually removed 627 tons of tornado debris from Lake Conway. In Vilonia, the new intermediate school under construction was destroyed, as were nearly two dozen businesses along Main St. (U.S. 64B), including a dollar store, a strip mall, two auto repair shops, the old city hall, a gas station, a real estate office, an investment firm, an auto parts store, and a fried chicken restaurant.

There were 12 fatalities in Faulkner County. In the Mayflower area, a 72-year-old woman was killed in a house on Plantation Dr., a 51-year-old man was killed in a house on Fortner Dr., and an 82-year-old man was killed in a house on Dam Rd. The other 9 fatalities were all in the Vilonia area. These included: brothers 7- and 9-years-old in a house on Cody Ln., a 50-year-old woman in a vehicle on U.S. 64, a 52-year-old man and a 53-year-old woman in a house on Cemetery Rd., a 57-year-old man in a house on North St., a 31-year-old man in a house on Aspen Creek Dr., and a 22-year-old man in a house on Clover Ridge Dr. In addition, a woman who was injured in a mobile home on Ponderosa Dr. gave birth to a baby which died immediately. More than 150 people were treated at hospitals.

The tornado hit Vilonia three years and two days after a tornado had destroyed some of the same structures. The tornado exited Faulkner County 4.6 miles southeast of Naylor and entered White County 2.2 miles west-northwest of El Paso.

Direct Fatalities: F1MH, F72PH, M51PH, M82PH, M9PH, M7PH, M52PH, F53PH, M57PH, M31PH, M22PH, F50VE

04/28/14 03:30 CST	0	Flood (due to Heavy Rain)
04/28/14 16:30 CST	0	Source: River/Stream Gage

Heavy rainfall on the 27th caused the White River at Batesville to rise above flood stage during the early morning hours on the 28th, then fell back below flood stage during the late afternoon hours that same day.

A round of showers and thunderstorms occurred during the morning of the 27th. Some of the storms produced hail in central Arkansas. New storms during the afternoon dropped hail in the northern and western parts of the state. The cool outflow from the morning storms left a boundary draped across the middle of the state. This boundary separated cool air to the north and much warmer air to the south. During the evening, as a strong area of low pressure approached, a supercell erupted rapidly along the boundary. Altogether, the supercell produced five separate tornadoes, the first of which was rated EF4 and killed 16 people. It was the deadliest single tornado in Arkansas since 1968. Nearly 200 people were treated at hospitals.

Large amounts of rain fell over the northeastern quarter of the state. For the 24-hour period ending at 7 AM on the 28th, some of the larger totals included 7.60 inches at Batesville Lock and Dam (Independence Co.), 6.10 inches at Calamine (Sharp Co.), 5.34 inches at Evening Shade (Sharp Co.), 5.05 inches at Melbourne (Izard Co.), 4.46 inches at Hardy (Sharp Co.), 4.18 inches at Blanchard Springs (Stone Co.), 3.96 inches at Armstead Mountain (Pope Co.), 3.95 inches at Saddle (Fulton Co.), 3.92 inches at Poughkeepsie (Sharp Co.), 3.91 inches at Greers Ferry Dam (Cleburne Co.), and 3.72 inches at Mountain View (Stone Co.).

President Barack Obama declared a disaster in the following counties: Faulkner, Pulaski, White, Cleburne, Independence, Jackson, Izard, Sharp, and Fulton.
