	04/18/19 07:20 CST		0	Flash Flood (due to Heavy Rain)
	04/18/19 10:20 CST		0	Source: Broadcast Media
A water rescue was performed at Highway 107 in Macon.				
SALINE COUNTY --- 0.9 NW BRYANT [34.61, -92.49]				
	04/18/19 10:36 CST		0	Heavy Rain
	04/18/19 12:36 CST		0	Source: Broadcast Media
Broadcast media reported 5.95 inches of rain.				

While it seemed the region was in the clear on the 13th, rain and cool air kept the pressure elevated. At the same time, a storm system strengthened in Texas, and the pressure fell to the southwest. This created a pressure gradient, and this often leads to increased wind speeds. Gusts exceeded 40 mph in the southern half of the state during the afternoon/evening, and this went on for several hours.

Storm Data and Unusual Weather Phenomena - April 2019

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

A 47 mph gust was measured at the airport in Hot Springs (Garland County) at 240 pm CDT. A couple of hours later, a gust reached 53 mph at Little Rock National Airport (Pulaski County). Numerous trees (200 to 300 trees) were downed on the west side of Lake Ouachita at the Little Fir and Tompkins Bend Recreation Areas (both in Montgomery County). Trees were also toppled at Hot Springs (Garland County), Houston (Perry County), Maumelle (Pulaski County), Pine Bluff (Jefferson County), and west Little Rock (Pulaski County). Some trees were on homes and blocking roads. At least 30,000 power outages were reported.

More rain was on the horizon by late on the 17th, and it was expected to be heavy. This was preceded by a few severe storms in the west. Golf ball size hail was reported at Dover (Pope County), with half dollar size hail at Atkins (Pope County), and quarter size stones at Clarksville (Johnson County) and Russellville (Pope County). Following the hail, the deluge commenced.

Three to more than five inches of rain dumped in central and western Arkansas. Forty eight hour amounts through 700 am CDT on the 19th included 6.02 inches just northeast of Bryant (Saline County), 5.44 inches at Little Rock (Pulaski County), 4.89 inches at Benton (Saline County), 4.50 inches at North Little Rock (Pulaski County), 4.50 inches at Crystal Valley (Pulaski County), 4.01 inches at Big Fork (Polk County), 3.77 inches at Conway (Faulkner County), 3.48 inches at Waldron (Scott County), 3.34 inches at Bogg Springs (Polk County), and 3.30 inches at Booneville (Logan County).

The 5.44 inches of rain at Little Rock (Pulaski County) not only shattered a daily record on the 18th, it was the 15th wettest calendar day on record locally and the 5th wettest April calendar day.

Given so much rain, there was high water along Interstate 30 near Vimy Ridge (Saline County). All lanes were closed for at least a couple of hours. In Macon (Pulaski County), flooding along Highway 107 stranded a vehicle, and people needed to be rescued. Many roads were flooded from Benton (Saline County) to the Little Rock (Pulaski County) area. Highway 11 near Hazen (Prairie County) was under water, as was Highway 31 around Woodlawn (Lonoke County). Many farm fields were converted into lakes.

LAWRENCE COUNTY --- 0.7 N BLACK ROCK [36.11, -91.10], 1.7 ENE BLACK ROCK [36.11, -91.07], 1.2 W PORTIA [36.08, -91.09], 0.9 N POWHATAN [36.09, -91.12]

BOONE COUNTY --- 1.5 S BERGMAN [36.30, -93.00], 2.7 SW SOUTH LEAD HILL [36.38, -92.94]				
	04/30/19 14:05 CST	0	0.70M	Tornado (EF1, L: 6.61 mi , W: 400 yd)
	04/30/19 14:19 CST	0	50K	Source: NWS Storm Survey
This tornado touched down just south of Zinc Road just southeast of Bergman in Boone County, where several trees were uprooted. After crossing Zinc Road, more trees were either uprooted or snapped, with some damage to site-built homes. Several mobile homes were either damaged or destroyed further northeast along Choctaw Lane and Daniels Road, especially those that were not strapped down. Several homes were damaged from large trees falling into the structures. Many outbuildings were damaged or destroyed along this path. Most of the damage was confined to areas along Daniels and Sugar Roads. This tornado lifted just north of Arkansas Hwy 7 in the Dixon Hollow area.

BOONE COUNTY --- 2.1 SSE CRICKET [36.42, -93.21]				
	04/30/19 16:46 CST	0		Thunderstorm Wind (EG 61 kt)
	04/30/19 16:46 CST	0		Source: Amateur Radio
Trees were blown down. Debris was in the road on Highway 65, about a mile north of Tower Road.				
A slow moving storm system brought severe weather to the region during the last day of the month. While the majority of the severe weather during the afternoon and evening hours on the 30th occurred north of the state, some damage was observed in northwest portions of the state, including one tornado in Marion County.
