|  | 04/12/20 19:58 CST |  | 0 | Source: AWOS                 |

The AWOS at the Stuttgart Municipal Airport measured this gust.

### MONROE COUNTY --- INDIAN BAY [34.38, -91.07]

|  |                    |  |     |                              |
|--|--------------------|--|-----|------------------------------|
|  | 04/12/20 20:10 CST |  | 50K | Thunderstorm Wind (EG 70 kt) |
|  | 04/12/20 20:10 CST |  | 0   | Source: Public               |

Damage occurred to a mobile home and roof damage occurred to a home. A small shed was blown away.

**On the 8th as a cold front headed this way from Canada. It was a very warm afternoon, with high temperatures in the 80s to lower 90s. It was 92 degrees at Harrison (Boone County) and Russellville (Pope County), and 91 degrees at Mena (Polk County), and Mountain Home (Baxter County). Normal highs are in the upper 60s to mid 70s.**

## Storm Data and Unusual Weather Phenomena - April 2020

| Location | Date/Time | Deaths & Injuries | Property & Crop Dmg | Event Type and Details |
|----------|-----------|-------------------|---------------------|------------------------|
|----------|-----------|-------------------|---------------------|------------------------|

The heat and increasing moisture made the atmosphere extremely unstable. However, thunderstorms had some difficulty developing. Data acquired from a balloon launch by the National Weather Service at the North Little Rock Airport (Pulaski County) revealed warming aloft (an inversion) at 100 pm CDT. Readings went from 68 degrees at 2000 feet to 75 degrees at 2500 feet. This tended to cap the lower levels of the atmosphere, and prevented storms from taking off. For most of the afternoon, there were few clouds.

Capping was weakest in the northeast, and this is where isolated storms finally went haywire by 500 pm CDT. One storm in particular peaked the interest of radar operators and kept them busy for several hours. The storm unleashed baseball size hail at Strawberry (Lawrence County), and golf balls at Horseshoe Bend (Izard County), Lynn (Lawrence County), and Ravenden (Lawrence County).

The biggest event of month happened on the 12th (Easter) and 13th. There were more than 1,000 reports of wind damage and at least 130 tornadoes from Texas to the Carolinas. Sadly, there were three dozen casualties.

We had to deal with a line of nasty thunderstorms. The line had bowing segments, indicating that powerful winds were driving the storms forward and causing them to bulge outward. Severe Thunderstorm Warnings were first issued between 530 pm and 600 pm CDT, and continued for five hours until the storms moved east of the Mississippi River. The storms produced damaging wind gusts from 60 to more than 80 mph, and knocked out power to at least 150,000 utility customers.

There were numerous reports of trees and power lines downed, with trees blocking roads in some cases. Trees fell on residences, resulting in a death at White Hall (Jefferson County) and an injury at Glen Rose (Hot Spring County). Outbuildings and sheds were damaged or destroyed. A roof was blown off of a poultry farm on Highway 154 north of Danville (Yell County). A 68 mph gust was measured at Petit Jean State Park (Conway County).

Much of Arkansas received one to more than three inches of rain, with the heaviest amounts over central and southern sections of the state. Monticello (Drew County) had an estimated 3.73 inches of precipitation on the 12th, breaking a daily record that stood since 1877.

This was one of the more significant downpours of the month, and contributed to largely above average rainfall totals. Surpluses of liquid in April were more than an inch at Little Rock (Pulaski County), and Pine Bluff (Jefferson County).

**OUACHITA COUNTY --- 1.8 SW KENT [33.61, -92.84], 0.6 WSW CAMDEN ARPT [33.62, -92.78], 2.6 NNE CULLENDALE [33.56, -92.78], 1.3 WNW COLLENDALE [33.56, -92.85]**

## Storm Data and Unusual Weather Phenomena - April 2020

| Location | Date/Time | Deaths & Injuries | Property & Crop Dmg | Event Type and Details |
|----------|-----------|-------------------|---------------------|------------------------|
|----------|-----------|-------------------|---------------------|------------------------|

A 62 mph wind gust was measured at Williams Baptist University.

**LOGAN COUNTY --- 0.6 E MAGAZINE [35.15, -93.81]**

|  |                    |   |  |                         |
|--|--------------------|---|--|-------------------------|
|  | 04/22/20 14:48 CST | 0 |  | Hail (1.00 in)          |
|  | 04/22/20 14:48 CST | 0 |  | Source: Law Enforcement |

Dime to quarter size hail was reported in Magazine.

**Warm air tried to return on the 19th, but failed. It was cloudy and rainy, with temperatures in the 50s and 60s. Outside of isolated hailstorms in western Arkansas, severe storms stayed away from us along the Gulf Coast.**

**On the 20th, there was more hail locally. A very low freezing level (only 8,000 feet) and lots of dry air overhead (leading to evaporation/cooling) made it very easy for ice to form. During the late afternoon, a storm dumped a tremendous amount of mostly small hail at Mammoth Spring (Fulton County). Some stones were as large as a quarter. Roads were blanketed with hail as if it had snowed. Temperatures quickly dropped from the lower 70s into the upper 40s.**

**As the storm tracked to the southeast, it brought up to half dollar size hail and a 62 mph wind gust to College City (Lawrence County). A 54 mph wind gust was measured at Walnut Ridge (Lawrence County). Hail (up to quarter size) also accumulated on roads at Rogers (Benton County).**

The 22nd was a repeat of the 19th. We lucked out as a gentle rain and cool conditions kept severe weather to a minimum.

**LAWRENCE COUNTY --- 1.2 N BLACK ROCK [36.12, -91.10], 2.4 ENE BLACK ROCK [36.11, -91.06], 1.0 W PORTIA [36.08, -91.09], 0.9 N POWHATAN [36.09, -91.12]**

| Trees fell across Highway 236 one mile SSW of Woodlawn, blocking the road.   |                    |                   |                     |                                |
| <b>BRADLEY COUNTY --- 0.6 E FARMVILLE [33.53, -92.17]</b>  |                    |                   |                     |                                |
|  | 04/25/20 00:30 CST |                   | 0                   | Thunderstorm Wind (EG 52 kt)   |
|  | 04/25/20 00:30 CST |                   | 0                   | Source: Social Media           |
| A large tree was blown down on Bradley County Road 34.   |                    |                   |                     |                                |
| It was warmer on the 24th (temperatures in the 70s), and our luck began to run out. A large hail/isolated tornado episode in Oklahoma, Texas, and Louisiana transitioned into strong to damaging winds (and trees down) in our neck of the woods.  |                    |                   |                     |                                |
| In western into central Arkansas, trees were toppled at Aplin (Perry County), Cabot (Lonoke County), Roland (Pulaski County), Rover (Yell County), Ward (Lonoke County), and Woodlawn (Lonoke County). At Vilonia (Faulkner County), part of the metal roof on a church was torn off. A 65 mph gust was measured at the Little Rock Air Force Base (Pulaski County). |                    |                   |                     |                                |
