Injuries Crop Dmg

County). Moisture was very limited (less than a tenth of an inch) farther north due to dry air around the incoming Arctic high. This is where it was cold enough to support light snow, and a lack of moisture meant accumulations would be minimal.

Light snow materialized across the north early on the 20th, with up to an inch of powder at Ozone and just southeast of Yale (both in Johnson County). Before precipitation ended, there was a dusting of snow in central Arkansas (less than a half inch) at Beebe (White County), Bee Branch (Van Buren County), Joy (White County), North Little Rock (Pulaski County), Perryville (Perry County), and Petit Jean State Park (Conway County).
