The Black Rock COOP observer measured 3.14 inches of rain since the day before.				

## Storm Data and Unusual Weather Phenomena - January 2022

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>SHARP COUNTY --- 2.4 NNW MAXVILLE [36.03, -91.60]</b>				
	01/01/22 08:20 CST		0	Heavy Rain
	01/01/22 08:20 CST		0	Source: CoCoRaHS
COCORAHS observer near evening shade measured 4.88 inches of rain since the day before.				
<b>IZARD COUNTY --- 1.8 ESE CROKER [35.87, -91.84]</b>				
	01/01/22 08:21 CST		0	Heavy Rain
	01/01/22 08:21 CST		0	Source: COOP Observer
The Cushman COOP observer measured 6.28 inches of rain overnight.				
<p>While no severe weather occurred at the start of the new year, a strong cold front moved into the state bringing a sharp divide to Arkansas with very cold air moving in across the northwest while temperatures approached 80 degrees across the southeast. Before cold air overspread the state entirely, some very heavy rain fell across portions of northern and western Arkansas. After the cold air moved across the state and the main storm system departed the area some very light snow/sleet was observed on January 2nd. Ground temperatures were warm in most places and there wasn't much in the way of impacts.</p>				
<b>LAWRENCE COUNTY --- 1.0 NNE BLACK ROCK [36.11, -91.09], 1.8 ENE BLACK ROCK [36.11, -91.07], 1.5 SE POWHATAN [36.07, -91.10], 0.5 SSW POWHATAN [36.07, -91.12]</b>				
	01/01/22 10:37 CST		0	Flood (due to Heavy Rain)

<b>(AR-Z044) PULASKI</b>				
	01/15/22 12:59 CST		0	Winter Storm
	01/16/22 03:42 CST		0	
<b>While rain was widespread during the day on January 15th, precipitation started out as snow across northwest Arkansas. Cold air moved across the state with temperatures falling from west to east and rain transitioning to snow. The cold air struggled to move into eastern portions of Arkansas but was firmly in place across northern and western parts of the state. With abundant moisture in place where the coldest air was located, some very heavy snowfall totals were observed across portions of the Ozarks and Ouachitas. Light snow was observed across much of the rest of the state as well.</b>				
<b>(AR-Z003) BOONE, (AR-Z004) MARION, (AR-Z005) BAXTER, (AR-Z006) FULTON, (AR-Z007) SHARP, (AR-Z008) RANDOLPH, (AR-Z012) NEWTON, (AR-Z014) STONE, (AR-Z015) IZARD, (AR-Z017) LAWRENCE, (AR-Z057) ARKANSAS</b>				
	01/19/22 12:00 CST		0	Winter Weather
	01/19/22 22:00 CST		0	
<b>Light snow moved across portions of northern Arkansas on the afternoon of the 19th. Snowfall amounts generally ranged from around half an inch up to three inches.</b>
