Heavy rain led to flooding on the Black River at Pocohontas.

WOODRUFF COUNTY --- 2.9 WNW AUGUSTA [35.30, -91.42], 2.1 NE AUGUSTA [35.30, -91.34], 2.8 S NEW AUGUSTA [35.23, -91.34], 4.1 SW RUFFWOOD [35.23, -91.42]

	06/01/19 00:00 CST		0	Flood (due to Heavy Rain)
	06/18/19 20:30 CST		0	Source: River/Stream Gage

Heavy rain led to flooding on the White River at Augusta.

Heavy rain in northwest Arkansas, northeast Oklahoma, and southeast Kansas brought record flooding to the Arkansas River. As June began, it was all about the Arkansas River. After fifteen to twenty inches of rain in May across northeast Oklahoma and southeast Kansas, and massive releases from nearby lakes, the Arkansas River rose to unprecedented levels. Crests in late May/early June were more than two feet above previous high marks at Van Buren (Crawford County), Toad Suck (Perry County), and Pendleton (Desha County).

Numerous highways were closed and flooded. This included Highway 22 near Barling (Sebastian County), which did not open until water receded on the 4th (after cresting on the 1st). A 64-year-old man lost his life on this highway on May 28th after driving around a barricade.

PIKE COUNTY --- LODI [34.31, -93.71]

	06/03/19 14:49 CST		0	Thunderstorm Wind (EG 52 kt)
	06/03/19 14:49 CST		0	Source: COOP Observer

A COOP Observer reported an apple tree and a larger tree was blown down at a relative's house in Lodi.

PRAIRIE COUNTY --- 0.9 NE HAZEN FOWLKES ARPT [34.79, -91.54]

	06/04/19 18:01 CST		0	Thunderstorm Wind (EG 61 kt)
	06/04/19 18:01 CST		0	Source: Law Enforcement

Trees were down causing power outages blocking the highway.

LAWRENCE COUNTY --- 3.5 S HOXIE [36.00, -90.97]

	06/04/19 19:27 CST		0	Thunderstorm Wind (EG 61 kt)
	06/04/19 19:27 CST		0	Source: Emergency Manager

Power poles and trees were down along County Roads 701 and 716 and State Hwy. 91. Structure damage was noted along County Road 701.

JOHNSON COUNTY --- 0.6 E KNOXVILLE [35.38, -93.36], 0.2 E KNOXVILLE [35.38, -93.37], 0.3 NNE KNOXVILLE [35.38, -93.37], 0.6 ENE KNOXVILLE [35.38, -93.36]

	06/05/19 15:05 CST		0	Flash Flood (due to Heavy Rain)
	06/05/19 15:05 CST		0	Source: Public

Flash flooding was reported in the city of Knoxville in Johnson County.

LOGAN COUNTY --- 0.9 NW PARIS MUNI ARPT [35.31, -93.69], 2.0 NNW PARIS MUNI ARPT [35.33, -93.69], 2.0 NNE PARIS MUNI ARPT [35.33, -93.67], 0.8 NNE PARIS MUNI ARPT [35.31, -93.67]

	06/05/19 15:40 CST		0	Flash Flood (due to Heavy Rain)
	06/05/19 15:40 CST		0	Source: Law Enforcement

Airport Industrial Dr. was closed due to the high water from flash flooding.

YELL COUNTY --- 1.8 NW CHICKALAH [35.19, -93.30], 2.3 NW SULPHUR SPGS [35.20, -93.36], 2.5 W SULPHUR SPGS [35.17, -93.37], 1.5 WSW CHICKALAH [35.16, -93.31]

	06/05/19 16:05 CST		0	Flash Flood (due to Heavy Rain)
	06/05/19 16:05 CST		0	Source: Emergency Manager

Two low water bridges were impassable due to flooding.

PULASKI COUNTY --- 0.9 NW HENSLEY [34.51, -92.21], 1.5 SSW WOODSON [34.51, -92.23], 1.8 W HENSLEY [34.50, -92.23], 0.6 WNW HENSLEY [34.50, -92.21]

Storm Data and Unusual Weather Phenomena - June 2019

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	06/06/19 22:00 CST		0	Flash Flood (due to Heavy Rain)

	06/19/19 21:15 CST		0	Source: Public
A few trees were down in the area.				
<p>Severe weather returned on the 19th, and one of the largest severe weather events in Arkansas of 2019 unfolded. The event began with softball size hail or larger around Vandervoort and Cove (both in Polk County) between 630 pm and 700 pm CDT. Evidence from photos showed that some hailstones were close to five inches in diameter, potentially tying the state record set on January 21, 1999 and April 2, 2006. Records go back to the 1950s.</p> <p>As the evening progressed, two clusters of storms evolved across the central and southern counties. They moved quickly to the east at 50 to more than 60 mph. This usually increases the chances of wind damage.</p> <p>Trees and/or power lines were downed at many locations including Camden (Ouachita County), Harrell (Calhoun County), Little Rock (Pulaski County), Mount Ida and Norman (both in Montgomery County), Cabot and Lonoke (both in Lonoke County), Florence and Montongo (both in Drew County), and McGehee (Desha County).</p>				
<hr/>				
LOGAN COUNTY --- 2.3 WSW SUBIACO [35.26, -93.68], 2.2 WSW SUBIACO [35.26, -93.68]	06/23/19 01:36 CST		0	Tornado (EF0, L: 0.06 mi , W: 25 yd)
	06/23/19 01:37 CST		55K	Source: NWS Storm Survey
Trees were uprooted along this short path. A tree fell onto a house and effectively split the house into two. There were no injuries, but the house was a total loss.				
<hr/>				
LOGAN COUNTY --- 1.8 SSW SUBIACO [35.26, -93.66], 1.8 SSW SUBIACO [35.26, -93.66]				

Storm Data and Unusual Weather Phenomena - June 2019

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	06/23/19 04:49 CST		15K	Tornado (EF0, L: 0.07 mi , W: 25 yd)
	06/23/19 04:50 CST		5K	Source: NWS Storm Survey

Trees were uprooted along this short path. Damage was noted to a mobile home roof and porch.

Severe thunderstorms and flash flooding occurred during the morning hours of the 23rd across western and northwest portions of the state. These storms then moved southeast throughout the day, with additional severe weather seen.

POPE COUNTY --- 0.6 E OAKLAND HGTS [35.27, -93.14]

06/23/19 02:27 CST	10K	Thunderstorm Wind (EG 78 kt)
06/23/19 02:27 CST	0	Source: NWS Storm Survey

Damage was noted on the campus of Arkansas Tech. Trees were snapped or uprooted. Large limbs were blown down and on the baseball field, the roof was blown off the dugout, and its contents were blown downwind. Also, the outfield fence was destroyed. The NWS Damage Survey confirmed straight-line winds of 80 to 90 mph.

A low water crossing had a lot of water flowing over it near Compton.				
<p>On the 23rd, the focus was on a couple of big thunderstorm clusters. The first cluster hammered areas north and west of Little Rock (Pulaski County) during the early morning hours, and it had a little of everything. Two weak tornadoes were spawned to the southeast of Paris (Logan County). The tornadoes uprooted or snapped trees, with one of the trees falling through a house. A mobile home roof and porch were also damaged. At Russellville (Pope County), thunderstorm gusts reached an estimated 90 mph at Arkansas Tech. Winds this strong tore up an outfield wall and first base dugout at a baseball field.</p> <p>There was a lot of rain and reports of flash flooding. Creeks and small streams were on the rise, and roads were under water. At Waldron (Scott County), Highways 28 and 71 were closed. Culverts were washed out along Highway 80 southwest of Danville (Yell County). Closer to town, there was plenty of standing water at the airport. County roads were impassible or washed out around Ozone (Johnson County) and Parthenon (Newton County).</p> <p>The first round of storms was followed quickly by another round in the late morning and afternoon hours. Between 1200 pm and 300 pm CDT, trees and/or power lines were toppled at Calico Rock (Izard County), Clarkridge (Baxter County), Evening Shade (Sharp County), Harmony (Johnson County), Melbourne (Izard County), Pocahontas (Randolph County), north of Strawberry (Lawrence County), Swifton (Jackson County), and Toad Suck (Perry County). There were instances of trees on homes, on vehicles, and blocking roads. A 61 mph wind gust was measured at Walnut Ridge (Lawrence County), with a 60 mph gust estimated at Bradford (White County).</p> <p>More than a month's worth of rain fell in portions of northern and western Arkansas in the forty eight hour period ending at 700 am CDT on the 24th. Nine miles west of Waldron (Scott County). One rain gauge collected 11.35 inches of precipitation! Abbott (Scott County) had 8.10 inches, with 7.50 inches at Devils Knob (Johnson County), 7.38 inches at Nunley (Polk County), and 6.20 inches at Jasper (Newton County).</p> <p>As the month came to a close, a storm system aloft visited from Missouri on the 26th. Cooler air overhead associated with the system moved over much warmer conditions near the ground. This agitated the atmosphere, and hit and miss thunderstorms flared up across the north.</p> <p>Storms were mostly non-severe, but there was a report of golf ball size hail just northwest of Cherokee Village (Sharp County). A low water crossing was flooded near Compton (Newton County).</p>				
YELL COUNTY --- 1.5 ESE CORINTH [35.06, -93.41], 1.1 NNW DANVILLE [35.07, -93.39], 0.7 NNW DANVILLE [35.06, -93.39], 1.3 W DANVILLE [35.05, -93.40]

The storm system drifted to the southeast toward northern Mississippi the next couple of days. Along the track of the system, thunderstorms continued developing in eastern Arkansas. Early on the 28th, areas of heavy rain in the east prompted the National Weather Service to issue Flash Flood Warnings for several counties.				
In some spots, precipitation amounts exceeded three inches. Roughly 8 to 9 miles southwest of Pocahton (Randolph County), 3.75 inches of liquid dumped in 2 to 3 hours. Closer to town, numerous streets were under water. County roads were also flooded at Balch and Amagon (both in Jackson County).				
LAWRENCE COUNTY --- 1.1 N BLACK ROCK [36.12, -91.10], 2.0 ENE BLACK ROCK [36.11, -91.07], 1.3 ESE POWHATAN [36.08, -91.10], 0.4 N POWHATAN [36.09, -91.12]
