A strong storm system brought severe weather to the region on the 9th. Severe thunderstorms produced wind damage and a few tornadoes. In additional to thunderstorms producing damage, non-thunderstorm winds were very strong as the system departed, which also caused damage well behind the thunderstorms.

## Storm Data and Unusual Weather Phenomena - March 2019

An EF1 tornado destroyed a mobile home along Scruggs Road, east of the community of Estes in Pulaski County during the morning of the March 9, 2019. Photo courtesy of the National Weather Service Little Rock, AR.

LAWRENCE COUNTY --- 0.5 N BLACK ROCK [36.11, -91.10], 1.3 ENE BLACK ROCK [36.11, -91.08], 1.1 WNW PORTIA [36.09, -91.09], 0.9 SW BLACK ROCK [36.09, -91.11]

There were spotty downpours expected on the 24th as a cold front pushed into the area from the northwest, but hail was a bigger worry. A few stones up to golf ball size were observed at Pencil Bluff (Montgomery County). There was half dollar size hail at Waldron (Scott County), and quarter size hail northwest of Mena (Polk County), at Oden (Montgomery County), and near Bee Branch (Van Buren County).
