Flooding continued from February into March on the White River at Georgetown.				
WOODRUFF COUNTY --- 0.9 WSW RIVERSIDE [35.28, -91.25], 0.3 S RIVERSIDE [35.28, -91.23], 0.9 N PATTERSON [35.26, -91.23], 0.9 N CAVELL [35.26, -91.25]				
	03/01/20 00:00 CST	0		Flood (due to Heavy Rain)
	03/03/20 23:00 CST	0		Source: River/Stream Gage
Flooding continued at the beginning of March through the 3rd on the Cache River at Patterson.				
WOODRUFF COUNTY --- 2.8 WNW AUGUSTA [35.29, -91.42], 1.2 N AUGUSTA [35.30, -91.37], 0.5 ESE AUGUSTA [35.28, -91.36], 2.5 W AUGUSTA [35.28, -91.41]				
	03/01/20 00:00 CST	0		Flood (due to Heavy Rain)
	03/31/20 23:59 CST	0		Source: River/Stream Gage
Flooding continued at the beginning of March through the end of the month on the White River at Augusta.				
Flooding from February continued into the first part of March.				
BOONE COUNTY --- 0.9 SW LEAD HILL [36.41, -92.91]				
	03/02/20 18:10 CST	0		Hail (0.88 in)
	03/02/20 18:10 CST	0		Source: Broadcast Media
MARION COUNTY --- 0.7 N OAKLAND [36.46, -92.57]				
	03/02/20 18:45 CST	0		Hail (0.75 in)
	03/02/20 18:45 CST	0		Source: Broadcast Media

March began with a near miss in Arkansas on the 2nd/3rd. Several inches of rain were in the forecast across the region, which was nothing new. Wet weather was the norm going all the way back to 2018, and this much precipitation in a short period of time would have led to widespread flooding. In the end, while one to two inches of rain fell in southern sections of the state, the expected deluge shifted toward the Gulf Coast. Two to over five inches of rain dumped from eastern Texas to Georgia. However a few storms produced hail that was nearly severe.

Storm Data and Unusual Weather Phenomena - March 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
CONWAY COUNTY --- JERUSALEM [35.40, -92.82]				
	03/11/20 06:24 CST	0		Hail (1.00 in)
	03/11/20 06:24 CST	0		Source: Public

IZARD COUNTY --- 1.5 NNW STELLA [36.02, -91.81]				
	03/12/20 18:19 CST	0		Hail (1.00 in)
	03/12/20 18:19 CST	0		Source: Law Enforcement
Large hail fell between Mt. Pleasant and Melbourne.				
VAN BUREN COUNTY --- 3.0 SSE CLINTON [35.54, -92.45]				
	03/12/20 18:20 CST	0		Thunderstorm Wind (EG 52 kt)
	03/12/20 18:20 CST	0		Source: Law Enforcement
Several large tree limbs were down near Choctaw.				
MONTGOMERY COUNTY --- MT IDA [34.55, -93.63]				
	03/12/20 18:41 CST	0		Heavy Rain
	03/12/20 18:41 CST	0		Source: ASOS

Heavy rain fell. ASOS recorded 0.77 inches of rain in 10 minutes from 631 PM CST to 741 PM CST.

Storm Data and Unusual Weather Phenomena - March 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
GARLAND COUNTY --- 1.8 SW PEARCY [34.41, -93.30]				
	03/12/20 18:59 CST		0	Hail (1.50 in)
	03/12/20 18:59 CST		0	Source: Social Media
Silver dollar sized hail was reported near Percy.				
MONTGOMERY COUNTY --- 0.9 SE CADDO GAP [34.39, -93.61]				
	03/12/20 19:15 CST		0	Heavy Rain
	03/12/20 19:15 CST		0	Source: Other Federal Agency
Heavy rain of 0.81 inches fell in 15 minutes between 700 PM CST and 715 PM CST. Also, 0.55 inches of rain fell between 645 PM CST and 700 PM CST, and 0.50 inches fell between 715 PM CST and 730 PM CST.				
HOT SPRING COUNTY --- BISMARCK [34.32, -93.17]				
	03/12/20 19:22 CST		0	Hail (1.00 in)
	03/12/20 19:22 CST		0	Source: Amateur Radio
In addition to quarter size hail, the observer reported one inch of rain in 45 minutes.				
POLK COUNTY --- 2.3 W INK [34.58, -94.16], 2.4 WNW INK [34.59, -94.16], 1.6 WNW INK [34.59, -94.15], 1.5 W INK [34.58, -94.15]				
	03/12/20 19:41 CST		0	Flash Flood (due to Heavy Rain)
	03/12/20 22:41 CST		0	Source: Law Enforcement
Water was reported to cover Hwy. 88.				
HOT SPRING COUNTY --- 0.6 E BROWN SPGS [34.33, -92.91]				
	03/12/20 19:45 CST		0	Thunderstorm Wind (EG 52 kt)
	03/12/20 19:45 CST		0	Source: Law Enforcement
Two trees were down along I-30 near the Social Hill Exit.				
PERRY COUNTY --- 0.6 E PLEASANT VLY [34.97, -92.66]				
	03/14/20 16:57 CST		0	Hail (1.00 in)
	03/14/20 16:57 CST		0	Source: Public
One inch diameter hail was reported between Bigelow and Wye Mountain. The time was estimated from radar and the report was relayed via social media.				
LONOKE COUNTY --- CABOT [34.97, -92.02]				
	03/14/20 18:28 CST		0	Hail (0.75 in)
	03/14/20 18:28 CST		0	Source: Public
Reports of dime to penny size hail came in from Cabot. The time was estimated from radar and reports were relayed via social media.				
<p>Early on the 11th, a front was parked over southern Arkansas, with a storm system approaching from the west. The system set off a large area of showers and thunderstorms in Kansas that tracked along and north of the front through northeast Oklahoma and into our neck of the woods.</p> <p>Between 600 am and 800 am CDT on the 11th, severe storms cranked out quarter size hail at Jerusalem (Conway County) and just northwest of Walnut (Newton County). At least 2.00 inches of rain was unleashed from the clouds at Center Hill (White County), with 1.98 inches at Damascus (Van Buren County).</p> <p>The front exited to the north on the 12th, and it warmed up markedly. Afternoon temperatures were in the 70s and 80s. Readings peaked at 88 degrees in Fort Smith (Sebastian County), 85 degrees at Fayetteville (Washington County), and 84 degrees at Harrison (Boone County).</p> <p>So much warmth destabilized the atmosphere. All that was needed was a trigger to spark more thunderstorms. In this case, the trigger was a new cold front surging into the region from the Plains.</p> <p>Scattered severe storms bubbled up across the northern and western counties. A couple of storms showed signs of rotation (supercells) from Fulton into Sharp Counties (in the Ozark Mountains), and from Polk into Montgomery Counties (in the Ouachita Mountains). Fortunately, no tornadoes were spawned. Instead, there was large hail.</p>				

Storm Data and Unusual Weather Phenomena - March 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

Up to golf ball size hail pelted locations near Ash Flat (Sharp County), with ping pong ball size hail close to Pearcy (Garland County), and half dollar size hail at Fawn Park (Baxter County), Horseshoe Bend (Izard County), and Pine Ridge (Montgomery County).

Storms on the 12th consolidated south of Little Rock (Pulaski County) and became widespread during the overnight hours. One to more than two inches of rain was measured at Antoine (Pike County), Cane Creek State Park (Lincoln County), Fordyce (Dallas County), Monticello (Drew County), Mount Ida (Montgomery County), Murfreesboro (Pike County), Pine Bluff (Jefferson County), and Pine Ridge (Montgomery County).

The front eventually came to a halt over northern Louisiana, and much cooler air followed. By the 14th, high temperatures were only in the 40s and 50s in the northern half of the state. It was only 43 degrees at Harrison (Boone County) and Mountain Home (Baxter County), and 46 degrees at Newport (Jackson County). Meanwhile, readings were in the 70s across the far south.

North of the front, a narrow band of heavy rain (two to three inch amounts) setup from around North Little Rock (Pulaski County) to Cabot (Lonoke County), and Des Arc (Prairie County). Hit and miss thunderstorms deposited quarter size hail near Pleasant Valley (Perry County), and pennies at Cabot (Lonoke County).

For the event (ninety six hour time frame ending at 600 am CST on the 15th), one to more than three inches of precipitation was common in Arkansas.

LAWRENCE COUNTY --- 0.6 N BLACK ROCK [36.11, -91.10], 1.3 ENE BLACK ROCK [36.11, -91.08], 0.8 SSE BLACK ROCK [36.09, -91.10], 0.7 SW BLACK ROCK [36.09, -91.11]

03/14/20 23:24 CST	0	Flood (due to Heavy Rain)
03/31/20 23:59 CST	0	Source: River/Stream Gage

Heavy rain brought flooding to the Black River at Black Rock 3/14/20.

OUACHITA COUNTY --- 2.7 NW CAMDEN [33.61, -92.86], 1.1 SSE KENT [33.62, -92.81], 2.4 E CAMDEN [33.58, -92.79], 0.7 S CAMDEN [33.57, -92.83]

03/15/20 02:36 CST	0	Flood (due to Heavy Rain)
03/29/20 02:45 CST	0	Source: River/Stream Gage

Heavy rain brought flooding to the Ouachita River at Camden 3/15/20.

RANDOLPH COUNTY --- 0.3 N POCAHONTAS [36.26, -90.97], 1.1 E POCAHONTAS [36.26, -90.95], 1.1 NW POCAHONTAS MUNI ARPT [36.24, -90.97], 1.8 SW POCAHONTAS [36.24, -90.99]

03/17/20 21:35 CST	0	Flood (due to Heavy Rain)
03/31/20 23:59 CST	0	Source: River/Stream Gage

Heavy rain brought flooding to the Black River at Pocahontas 3/17/20.

Stalled fronts from the north interacted with pieces of energy from the southwest, and this led to several rounds of heavy rain and severe weather from the 11th through the 14th. This led to some river flooding.

North of the front, a narrow band of heavy rain (two to three inch amounts) setup from around North Little Rock (Pulaski County) to Cabot (Lonoke County), and Des Arc (Prairie County). For the event (ninety six hour time frame ending at 600 am CST on the 15th), one to more than three inches of precipitation was common in Arkansas.

PERRY COUNTY --- 1.9 WSW HOUSTON [35.02, -92.73], 1.5 SW HOUSTON [35.02, -92.72], 2.1 SSW HOUSTON [35.00, -92.72], 2.5 SW HOUSTON [35.00, -92.73]

03/19/20 00:00 CST	0	Flood (due to Heavy Rain)
03/25/20 02:30 CST	0	Source: River/Stream Gage

Heavy rain brought flooding to the Fourche LaFave River at Houston on 3/19/20.

WHITE COUNTY --- 1.3 SE WATKINS [35.14, -91.47], 2.3 ENE GEORGETOWN [35.14, -91.42], 3.9 SE GEORGETOWN [35.07, -91.41], 4.1 SW GEORGETOWN [35.07, -91.49]

03/19/20 17:22 CST	0	Flood (due to Heavy Rain)
03/19/20 18:52 CST	0	Source: River/Stream Gage

Heavy rain brought flooding to the White River at Georgetown on 3/19/20.

WOODRUFF COUNTY --- 0.9 W RIVERSIDE [35.28, -91.25], 0.2 ENE RIVERSIDE [35.28, -91.23], 0.5 N PATTERSON [35.26, -91.23], 0.8 N CAVELL [35.26, -91.25]

Storm Data and Unusual Weather Phenomena - March 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	03/19/20 19:00 CST		0	Flood (due to Heavy Rain)
	03/23/20 23:59 CST		0	Source: River/Stream Gage

Heavy rain brought flooding to the Cache River at Patterson on 3/19/20.

WHITE COUNTY --- 1.3 SSE WATKINS [35.13, -91.47], 2.1 ENE GEORGETOWN [35.13, -91.42], 3.4 SSE GEORGETOWN [35.08, -91.42], 3.4 SSW GEORGETOWN [35.08, -91.48]

	03/23/20 08:08 CST		0	Flood (due to Heavy Rain)
	03/31/20 23:59 CST		0	Source: River/Stream Gage

Heavy rain brought flooding to the White River again at Georgetown on 3/23/20.

Heavy rain brought flooding to the White, Cache, and Fourche LaFave Rivers.

BOONE COUNTY --- 2.2 W EVERTON [36.15, -92.94]

	03/19/20 17:50 CST		20K	Thunderstorm Wind (EG 61 kt)
	03/19/20 17:50 CST		0	Source: Broadcast Media

A house was damaged and power lines were downed east of Valley Springs.

BOONE COUNTY --- 2.4 WSW EVERTON [36.14, -92.94], 7.8 E PLEASANT RIDGE [36.22, -92.74]

	03/19/20 17:50 CST		0.28M	Tornado (EF2, L: 12.50 mi , W: 500 yd)
	03/19/20 18:11 CST	1	0	Source: NWS Storm Survey

The tornado began along Highway 206 East near Marshall Creek Road, where power poles were broken and there was some damage to a residence. Through southeast Boone County, the tornado uprooted and snapped trees, then moved across the southeast portion of Everton. There, the roof of a house was torn off and several trees were snapped at mid-trunk level.

The tornado then tracked into Marion County where it uprooted trees. Near the intersection of County Roads 4019 and 4023, it destroyed a hay barn. Several large trees were uprooted and the porch was ripped off of a home. Several trees and power poles were downed and snapped. Before crossing Meadowcrest Lane and County Road 4019, it uprooted and snapped power poles and trees, caused extensive damage to a house, and destroyed an outbuilding. The tornado crossed Arkansas Highway 125 south near Eros and damaged the Bruno-Pyatt School. East of Eros, the tornado caused severe damage to a residence and destroyed its garage. Near the intersection of County Roads 4018 and 4010, several houses had severe damage. One person had a minor injury but was reportedly in good condition. The final damage points were WSW of Yellville, where several large trees were uprooted, power poles were broken, and a residence sustained roof damage.

BOONE COUNTY --- 0.9 NW EVERTON [36.16, -92.91]

	03/19/20 17:55 CST		10K	Thunderstorm Wind (EG 61 kt)
	03/19/20 17:55 CST		0	Source: Broadcast Media

A home was damaged in Everton.

MARION COUNTY --- 1.8 NE EROS [36.20, -92.83]

	03/19/20 18:11 CST		20K	Thunderstorm Wind (EG 61 kt)
	03/19/20 18:11 CST		0	Source: Trained Spotter

Damage was reported at the Bruno-Pyatt school.

BAXTER COUNTY --- 0.7 NNE WHITEVILLE [36.33, -92.48], 1.7 ESE MONKEY RUN [36.34, -92.44]

	03/19/20 18:30 CST		0.12M	Tornado (EF1, L: 2.16 mi , W: 600 yd)
	03/19/20 18:35 CST		0	Source: NWS Storm Survey

The tornado uprooted or snapped several large trees and damaged outbuildings. A large tree was uprooted and fell through the bedroom of a residence. A large portion of the roof of a house was torn off and blown into nearby trees.

BAXTER COUNTY --- 3.5 N MOUNTAIN HOME [36.38, -92.38]

	03/19/20 18:30 CST		0	Thunderstorm Wind (EG 59 kt)
	03/19/20 18:30 CST		0	Source: Trained Spotter

This wind speed was estimated by a trained spotter.

POPE COUNTY --- 1.0 NW RETTA [35.53, -92.94], 0.9 N RETTA [35.53, -92.93]

Storm Data and Unusual Weather Phenomena - March 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	03/19/20 19:09 CST		0	Tornado (EF1, L: 0.81 mi , W: 300 yd)
	03/19/20 19:10 CST		0	Source: NWS Storm Survey

This tornado began near the Highway 27 bridge over the Middle Fork of Illinois Bayou. It uprooted and snapped several trees.

POPE COUNTY --- 1.6 NNW LOST CORNER [35.59, -92.84], 3.7 NNE LOST CORNER [35.62, -92.80]

	03/19/20 19:23 CST		20K	Tornado (EF1, L: 2.79 mi , W: 200 yd)
	03/19/20 19:27 CST		0	Source: NWS Storm Survey

The tornado first hit on a ridgeline around 1500 feet near Napier Hollow where it downed a few trees. The tornado crossed Napier Hollow and moved back up a ridge to Dabney Road, a tree was blown onto a barn, and another smaller tree was blown onto a travel trailer. The tornado crossed Dabney Road and moved through a field and down the ridge. On Darrell Road, a storage shed was destroyed, and the roof was blown into some trees which were subsequently uprooted. The roof of a storage barn was damaged.

VAN BUREN COUNTY --- 1.1 E CLINTON [35.58, -92.45]

	03/19/20 20:10 CST		0	Hail (1.00 in)
	03/19/20 20:10 CST		0	Source: Public

One inch diameter hail was reported near the Clinton Airport.

SHARP COUNTY --- EVENING SHADE [36.07, -91.62]

	03/19/20 21:00 CST		0	Thunderstorm Wind (EG 61 kt)
	03/19/20 21:00 CST		0	Source: Utility Company

Numerous downed trees in Sharp County caused widespread power outages.

SHARP COUNTY --- 3.5 SW CENTER [36.11, -91.56], 3.1 ESE CENTER [36.14, -91.47]

	03/19/20 21:07 CST		20K	Tornado (EF1, L: 5.67 mi , W: 400 yd)
	03/19/20 21:13 CST		0	Source: NWS Storm Survey

For the majority of the tornado's path, large trees and power poles and power lines were the most common damage indicators. The majority of the structural damage caused by the tornado was observed at the Mashburn farm where there was substantial damage to outbuildings, including one outbuilding that slid off of its foundation. There was minor damage to a residence on the farm as well, and extensive tree damage throughout the property.

SHARP COUNTY --- 1.3 ESE CENTER [36.14, -91.50]

	03/19/20 21:10 CST		0	Thunderstorm Wind (EG 52 kt)
	03/19/20 21:10 CST		0	Source: Emergency Manager

Several large trees were reported uprooted near Highway 354.

A line of strong to severe storms developed ahead of the front, with the most robust storms closest to the Missouri border after 500 pm CST. One storm in particular went from southeast Boone County into southern Marion County and northwest Baxter County. The storm had strong rotation at times and it headed quickly to the northeast at 40 to 50 mph. There was plenty of chaos in the path of the storm, and no doubt that one or more tornadoes were in play.

A house was damaged east of Everton (Boone County), and power lines were downed. Between Pyatt and Bruno (both in Marion County), several homes were damaged or destroyed with an injury reported. A school was also affected. A tree fell through a house west of Mountain Home (Baxter County).

In the end, two tornadoes (rated EF1/EF2) were spawned in a three county area. Three more weak tornadoes (all rated EF1) were confirmed with separate storms from five miles north of Hector (Pope County) to six miles west-southwest of Rupert (Van Buren County), and from four miles northeast of Evening Shade to four miles north of Poughkeepsie (both in Sharp County). These tornadoes toppled trees and hit a couple of barns and outbuildings.

This event did not feature a lot of rain, and there was only 0.01 inch measured at Little Rock (Pulaski County) on the 19th. But, this was enough to make it eleven consecutive days with measurable precipitation. It was one day away from tying the all-time record of twelve days in a row. A trace of rain on the 20th ended the streak.

JACKSON COUNTY --- 0.5 N ALGOA [35.51, -91.12], 0.5 SSW MIDWAY [35.56, -91.05]

	03/28/20 15:18 CST		0.20M	Tornado (EF1, L: 5.33 mi , W: 200 yd)
	03/28/20 15:24 CST		0	Source: Law Enforcement

Law enforcement reported several power lines down and a few roofs missing from homes between Algoa and Amagon. Farm machinery was tossed into a field.

Storm Data and Unusual Weather Phenomena - March 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	----------------------	------------------------	------------------------

It was still very mild on the 28th, and there was at least some potential of tornadoes (although tornadoes were most likely from Iowa to Illinois and Indiana). Precipitation behaved for the bulk of the day (not much happening). A large area of showers crossed Arkansas during the afternoon, and there were rumbles of thunder at times. But as rain headed into eastern sections of the state, things got interesting.

Rotation picked up in one storm near Tupelo (Jackson County), and a Tornado Warning was issued at 259 pm CST. About twenty minutes later, there were reports of roofs off of homes between Algoa and Amagon (both in Jackson County). Farm equipment storage buildings were dismantled, and trees were uprooted.

A tornado was to blame, and was given a rating of EF1 (110 mph winds) by the National Weather Service in Little Rock (Pulaski County). The tornado dissipated close to the Poinsett County line (a path length of just over five miles).

YELL COUNTY --- 1.1 SE CORINTH [35.06, -93.41], 1.8 NNE DANVILLE [35.07, -93.37], 1.0 NE DANVILLE [35.06, -93.37], 1.6 W DANVILLE [35.05, -93.41]

	03/31/20 13:54 CST	0	Flood (due to Heavy Rain)
