11/14/18 03:00 CST	0	Winter Weather
11/15/18 05:00 CST	0	

A storm system brought significant snow to parts of Arkansas on the 14th and 15th. On the 14th, it remained cold when a storm system aloft headed this way from the west. The system strengthened along the way, and tried to pull moisture toward us from the southeast states (where rain was extensive).

Temperatures failed to get above freezing at Harrison (Boone County), Newport (Jackson County), and North Little Rock (Pulaski County). At North Little Rock (Pulaski County), it was the coldest November day on record (going back to 1975).

While the system struggled to ingest moisture (most areas received less than a tenth of an inch of liquid), there was enough to produce two to more than four inches of snow in parts of the south and east. Some of the higher snowfall totals included 5 to 6 inches at Georgetown (White County), 3 to 4 inches near Des Arc (Prairie County), 3 inches around Rison (Cleveland County) and Patterson (Woodruff County), and 2 to 3 inches at Augusta (Woodruff County), southeast of Stuttgart (Arkansas County), south of Pine Bluff (Jefferson County), and Rye (Cleveland County).

MARION COUNTY --- 0.6 W SUMMIT [36.25, -92.69]

11/30/18 19:34 CST	0	Hail (0.75 in)
11/30/18 19:34 CST	0	Source: Public

Penny sized hail was reported at Hilltop Liquor in Summit. Time estimated from radar.

LOGAN COUNTY --- 2.8 SSW DRIGGS [35.19, -93.80], 2.7 ESE DRIGGS [35.22, -93.73]

11/30/18 23:50 CST	25K	Tornado (EF0, L: 4.29 mi , W: 100 yd)
11/30/18 23:54 CST	0	Source: NWS Storm Survey

The tornado blew down trees, and removed some roofing material from several homes. Some barns and outbuildings were damaged.

Isolated severe weather was noted on the 30th. A weak tornado was reported in the west and 3/4 inch hail in the north.
