

Paxton Fell

Meteorologist National Weather Service Miami / South Florida

Paxton Fell is a meteorologist at the NOAA National Weather Service forecast office (WFO) in Miami, FL. Born and raised in South Florida, she received a Bachelor of Science degree in Meteorology, with a minor in both mathematics and physics, from the Florida State University (2015) in Tallahassee. While a student there, Paxton worked as a student trainee in the Tallahassee WFO during the fall of 2009.

After graduation, Fell was employed for three years in the private sector as an aviation meteorologist and flight planner in Houston, TX. She provided weather forecasts for all over the world while learning the different climate types, weather patterns, and weather characteristics, including the Southern Hemisphere.

She began her professional career with the National Weather Service in Fall of 2018, returning to her home area as a general forecaster at the Miami / South Florida NSW forecast office.

For the NWS Miami WFO, Fell is the Aviation program leader. She is also involved with the NWS WFO Back-up, Leadership, Mesoscale Analysis, Newsletter, Operations, Social Media, and Upper-Air teams. Her professional interests include radar, aviation, and outreach.

Her personal interests include bowling, attending Dolphin / Marlin games, playing chess, cheering on the FSU Seminoles, and doing anything outside with her dog, including hiking, tennis, kayaking and biking. Fell is a member of the American Meteorological Society and the National Weather Association.
