SURVEY INFORMATION HOBE SOUND DAMAGE January 9, 2014

A NWS storm survey concluded that a severe thunderstorm produced straight line wind damage across a 1/3 mile zone between Old Dixie Highway and US-1 in Hobe Sound. The damage occurred at 6:20 pm on January 9, 2014 across 3 to 4 blocks of mobile homes with approximately 20 structures affected. Maximum straight line winds were estimated between 70 and 80 mph. No injuries were reported.

Some photos from the damage survey are below:

NWS Melbourne would like to thank Martin County Emergency Management and the Florida Division of Emergency Management for their assistance.
