Subject: Second Delay of the Spring 2022 Forecast Zones Implementation
 Date to April 5, 2022 Due to a Critical Weather Day (CWD)
 Declaration

The National Weather Service (NWS) is delaying all zone change implementations originally scheduled for March 29, 2022 (March 30, 2022 in Tiyan and Guam) for a second time. The delay is due to a CWD declaration for extremely critical fire weather conditions in the central/southern Plains today, prompting a zone change implementation date in a more favorable weather window of opportunity.

The implementation date is now scheduled for Tuesday, April 5, 2022 (April 6, 2022 in Tiyan and Guam). If April 5, 2022 is also declared a CWD, another Public Information Statement (PNS) will be issued specifying the alternate date.

Service Change Notices (SCNs) affected include:

[SCN21-102](#) (Alaska Public and Fire Zones)
[SCN21-103](#) (Alaska Marine Zones)
[SCN21-104](#) (Alaska Census Area Changes)
