From: Pat Burke
 Chief, National Ocean Service (NOS) Center for
 Operational Oceanographic Products and Services (CO-OPS)
 Oceanographic Division

Subject: Discontinuation of OPeNDAP NetCDF Service at NOS/CO-OPS:
Effective May 31, 2019

Effective May 31, 2019, at approximately 1300 Coordinated Universal Time (UTC), 9 AM Eastern Daylight Time (EDT), the NOAA National Ocean Service (NOS) OPeNDAP NetCDF server will be discontinued by NOS/CO-OPS:

<https://opendap.co-ops.nos.noaa.gov/netcdf/>

The netcdf product displays CO-OPS NetCDF model data allowing users to access data sets of interest in ASCII and Binary formats through OPeNDAP.

The netcdf service has become redundant with newer data dissemination pathways at THREDDS Service providing the same NetCDF files. Users of this product are directed to the following url displaying the same information:

<https://opendap.co-ops.nos.noaa.gov/thredds/catalog.html>

The URL above is active and users can start using them at any time.
