Service Change Notice 19-33
National Weather Service Headquarters Silver Spring MD
905 AM EDT Thu Apr 25 2019

To: Subscribers:
 -NOAA Weather Wire Service
 -Emergency Managers Weather Information Network
 -NOAAPort
 Other NWS Partners, Users and Employees

From: Michelle Mainelli
 Director, Office of Dissemination

Subject: Changes to NWS Dissemination Webpage URLs: Effective October 31, 2019

On or about Thursday, October 31, 2019, at 800 AM Central Daylight Time (CDT), 1300 Coordinated Universal Time (UTC), the NWS will change public facing dissemination system webpage URL base address locations; migrating from: <https://www.nws.noaa.gov> to <https://www.weather.gov>.

After this change, all the affected dissemination system webpage links currently re-directed to the new locations will cease to function. Thereafter, users will see a 404 error when attempting to access the old URL base address for each respective dissemination system.

The affected dissemination system URLs include:

<https://www.nws.noaa.gov/nwr> <https://www.nws.noaa.gov/nwvs>
<https://www.nws.noaa.gov/emwin> <https://www.nws.noaa.gov/iscs>

and all subordinate webpage URLs.

All NWS partners and users will need to make necessary changes to saved URLs.

Updated alerts and warnings remain online at:

<https://www.weather.gov>
<https://alerts.weather.gov>

For more information, please contact:

Gregory Zwicker
Program Manager
NWS Office of Dissemination
Dissemination Systems Branch
Silver Spring, MD
